Action Stems From Carpenter Job Loss

Lay off procedures for Daly City employees are to be studied for possible revision and classification, according to a directive issued Monday night by the Daly City council.

The issue has stemmed from an investigation of city rules and regulations following the recent layoff of city carpenter Reginald Calvert.

The city employees union local 919 had contended the layoff was not proper and the procedure was not proper.

Union business representative Edward Kenney said that the rules and regulations for classified city employees, adopted in 1958 by Daly City, state layoffs shall be by seniority "within the class." But, he said, the rules never give a definition of class.

The union had also questioned the authority of the city manager to lay off the transfer personnel without the approval of the personnel board.

Kenney said the older employees of the city felt their jobs were in jeopardy because of Calvert's layoff — that this could happen to them, also.

City's View

Daly City manager Edward Frank told the personnel board that Calvert was laid off after 4½ years on the job because the city engineer saw no need for a carpenter and made no request for funds for such skills.

Speaking before the board of review in December, City Manager Frank said that during the 1961-62 fiscal year a deficit of $24,000 was experienced because salaries of maintenance personnel exceeded the value of work done.

Attorney for the union, Jess Ambrovitz, said the union felt the city owed Calvert another job. City Manager Frank said another job was offered and Calvert didn't accept it in time.

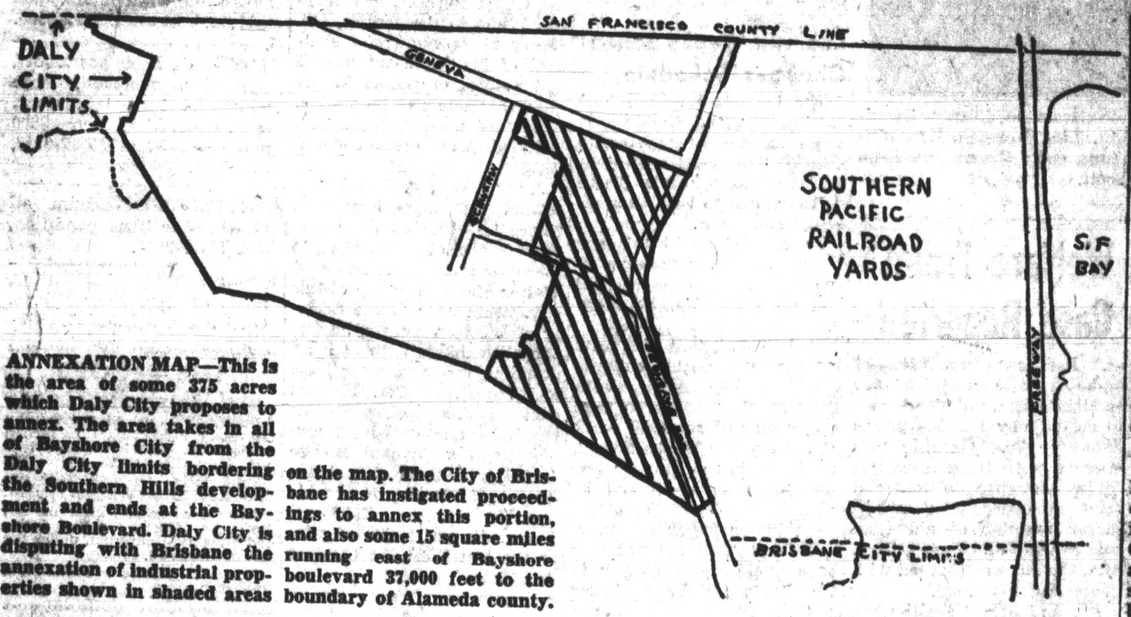
Ordinance Spirit

Final hearing on the case was set for December 19. The board's opinion was that City Manager Ed Frank was technically correct in his actions, but that the act of Calvert's layoff violated the apparent intent of the city council and the spirit of Ordinance 203 and the rules and regulations.

The board recommended that Calvert accept a transfer to the position of maintenance man.

This Monday, the city council made its own decision. It was that the city manager will offer Calvert a job as city carpenter when there is an opening for this position.

The council stated that "with respect to any other issues raised by Calvert, particularly as to his reinstatement, the city council refers the findings of the personnel board to the city manager as the appointing authority.



ANNEXATION MAP—This is the area of some 375 acres which Daly City proposes to annex. The area takes in all of Bayshore City from the Daly City limits bordering the Southern Hills development and ends at the Bayshore Boulevard. Daly City is disputing with Brisbane the annexation of industrial properties shown in shaded areas on the map. The City of Brisbane has instigated proceedings to annex this portion, and also some 15 square miles running east of Bayshore boulevard 37,000 feet to the boundary of Alameda county.

Daly City Moves To Annex Bayshore City

The issues became sharper this week as Daly City took steps to annex 375 acres of Bayshore City.

Daly City councilmen, in a special meeting at city hall Thursday night, passed a resolution creating boundaries for annexation.

The area contains between $4½ and $5 million in assessed valuation plus potential industrial land.

Daly City is disputing with Brisbane over annexation of Bayshore City properties, including Crown Cork and Seal Company, 2650 Bayshore, and Pacific Gas and Electric Company.

Finance director Joseph Arch said there are 55 businesses in the area which Daly City wants to annex with a total sale tax value of $80,000 annually.

Mayor pro-tem Micheal DeBernardi said the following annexation steps would be taken:

(1) A resolution for petition to annex would be circulated in the Bayshore City area.

(2) A vote will be taken in that area.

(3) A hearing will be called by Daly City to hear all protests of property owners in the Bayshore area.

If property owners holding more than 51 per cent of the assessed valuation protest against the annexation, Daly City will not be able to annex.

Other annexation steps include referring the boundaries description to the San Mateo County boundaries commission.

DeBernardi said that all five Daly City councilmen are in accord with the annexation.

Meeting Held

City manager Edward Frank announced that a meeing on the Bayshore annexation was held at the city hall earlier with the mayor, councilmen, city officials, officials of P. G. &E., fire chief Ritzmann of Bayshore City and attorney.

The position and possible action of Daly City was outlined and after extensive discussion of the pros and cons of the situation of the Brisbane annexation as it might affect P. G. & E. and the city of Daly City, as well as the area involved, officials of the P. G. & E. stated:

Further development will await the action of the Daly City council.

Approximately 20 per cent of the proposed annexation area is industrialized at this time.

New Court Battle

Annexation Petition to Be Circulated

Two new developments in the battle over Bayshore's future with either Daly City or Brisbane loomed today.

Attorney Tom Bocci, counsel for the Bayshore City Citizen's Association, told the Times and Record last night that Bayshore people will start circulating petitions for annexation to Daly City on Monday. This is the next step following Daly City council's acceptance of a proposed boundary submitted last week.

Another court battle over Brisbane's proposed annexation of the valuable industrial lands is in the offing. The Superior Court has set a new hearing on February 7 at 10 a. m. on a petition seeking to invalidate Brisbane's annexation proceedings.

In the event that the court refuses to give relief to the Bayshore sanitary district, which is seeking the new court relief, the matter will be taken to the District Court of Appeals in San Francisco for appropriate decision, Bocci said.

Highly Paid Bookie Nabbed

A Daly City man said to be a $25,000-a-day bookie, was arrested Saturday by San Mateo County sheriff's officers and San Francisco police.

Officers raided the headquarters of Charles Wallace Tibbats, 41, of 758 Skyline boulevard, Daly City, at 57-B Acacia street, Bayshore City, just a few feet from the San Francisco County line.

A woman had complained that her husband was losing his paycheck regularly to Tibbats and his telephone. Police halted Tibbats as he emerged from his Bayshore apartment. They brought him back inside and were met by a ringing telephone. An officer took one bet and then another 50 in the next hour.

Prepare Final Road Bond Draft

The Greater Highways Committee will meet with representatives of San Mateo County's cities in Redwood City Thursday to prepare a final draft of the proposed $35,000,000 city-county road construction program scheduled for presentation to the voters in April.

Supervisor James V. Fitzgerald, committee chairman, said the program will be presented to the Board of Supervisors for action next Tuesday.

He pointed out that most of the 17 cities already have approved the plan in principal.

Fitzgerald explained that the contemplated $35,000,000 bond issue would finance the first phase of a three-stage $115,000,000 highway program designed to meet the county's needs through 1990. The first phase is scheduled for completion by 1970.

The proposed $35,000,000 road bond issue has the endorsement of the Governmental Research Council, which presented a financing program that was adopted by the Board of Supervisors last week.

In adopting the financing program, the supervisors pledged $5,000,000 from gas tax funds on a "pay-as-you-go" basis to keep the bond issue to a minimum and up to $1,000,000 a year from county sales tax revenues to help retire the bonds.

This, according to Fitzgerald, would make it possible to retire the bonds with no tax increase the first year, a 1.8 increase the second year and increases in subsequent years to a maximum of 11.5 cents.

Fitzgerald hailed the development of the highway plan as the beginning of a new era of city-county cooperation.

"I think the whole future of San Mateo County is keyed to this road program," he declared. "In the minds of the county leaders, this takes precedence over all other projects. It is essential to the development and prosperity of the area."

He added that he sees it as the forerunner to other cooperative city-county ventures aimed at solving problems not confined by boundaries of political jurisdiction.

Council Notes

A hearing date has been set for February 7 before the San Mateo boundary commission on Daly City's proposal to annex territory to the city. The proposal was filed January 25. A general description of the area is: territory lying between easterly city limits of the City of Daly City and Bayshore Highway not included in pending annexation proceedings by the City of Brisbane and lying northerly of existing north city limits of City of Brisbane.

County Manager E. R. Stallings notified the Daly City city council that a final hearing will be held on North County flood zone on February 5. Mayor Joseph Verducci said the city's position would be hands-off of this project, since it would mean a tax raise for this city. The city has felt that South San Francisco would be the only city to derive any great benefits from this project.

Chamber of Commerce manager Pete Markovich announced that on January 30 and 31 the Mission street merchants of Daly City are conducting an area-wide promotion to be known as "January Sale of Sales."

High School Board Vetoes Unification

The Jefferson Union High School board of trustees went on record Monday night as opposing any unification plan which will break up the present high school district.

James Cooper, president of the board, said: "The Jefferson board will present a unanimous opposition if there is any open attempt to divide the JUHSD—we will oppose it with great vigor."

The Jefferson High School District includes the area of the four other elementary districts — Laguna Salada, Jefferson Elementary, Bayshore and Brisbane.

Edward Morgan, district superintendent, clarified the position of the board even more by saying tthat what Cooper said was not expressing an opinion either pro or con for unification, but merely defining what type of plan would be acceptable to the local board.

"The arguments pro and con will evolve during the interim period — after a plan has been approved and before the people vote on it," Morgan said.

All of the board agreed that some plan should be formulated to present to the San Mateo County Committee on School District Organization by the March 20 deadline.

Three Alternatives

Cooper said that the board had three alternatives:

(1 The approval of the present plan.

(2) The submission of a point district plan.

(3) Let the deadline lapse and have the state force a plan on the districts.

The trustees were all in accord in ruling out the latter. "Whatever recommendation is made we should be prepared to act upon it," said Cooper.

Secretary Resigns

In other action, the board regretfully accepted the resignation of popular district secretary Mrs. Sue Lykins. Mrs. Lykins, who has been with the district for two years and in school administration for 11 years, submitted her resignation "after a great deal of thought." Her husband's work necessitates the family moving out of the district.

"Our best wishes go with her and we are very sorry to see her leave," said Morgan.

Morgan also received permission from the board to revise the master plan at Jefferson High School. The cur-

Shopping Center Plan Withdrawn

The attorney for developer Thomas J. Callan, Jr., and Michael Callan, January 22 broke a 17-week silence and withdrew a petition to the Daly City Planning Commission for rezoning nine acres of land east of Westmoor High School for the purpose of building a shopping center.

Commissioner Tony Masini said there has been opposition from both residents and businessmen in the area and that no decision could be given until Callan's intentions were clear.

Denied were two requests for rezoning by Mr. and Mrs. R. P. Sowers, 7 Fairlawn court, and J. F. Flaherty, 72 Fairlawn court. Both petitions asked to rezone areas from single family to multiple use.

Approved was a permit to William Lonich to establish a cocktail lounge and sign at 6057 Mission street.

Bank Directors Are Elected

The First National Bank of Daly City, in organization, held its initial shareholders meeting on January 24.

The following directors were elected from the original sponsoring group:

Ricco Lagomarsino, chairman; Harry Curusis, secretary; Lawrence Vannucci, Gerald Mincher and Elton McGraw.

John F. Varni was elected president and director. David David Friedenberg was appointed counsel for the bank. The stock offering in the amount of $1,000,200 was made available in November, 1962, and the issue has been oversubscribed.

Constuction of a new bank building is in the planning stage, and consideration is being given to the opening of a temporary headquarters in Daly City in the near future.

A 1933 coupe with faulty brakes sailed through the intersection of Shakespeare street and San Jose avenue at 4:30 p.m. last Friday, crashed against a telephone pole, and threw a telephone company pick-up truck up on the sidewalk. The auto somehow escaped collision with other cars as it crossed the busy intersection.

Two male passengers in the runaway vehicle were taken by police to Junipero Serra Hospital for treatment of head cuts.

The driver of the car, Frank Neumann, Jr., 25, told officers he had no choice after the brakes failed but to cross the street and smash into the pole. The car was a total wreck. A parking meter was snapped off by the impact.

Treated at the hospital were Richard Bender, 20, 882 Hanover street, and Ronald E. Molina, 23, 13 Shakespeare street, A third passenger, Pat Gattrell, 16, 729 Hanover street, was shaken up.

Archbishop To Be Reburied In Colma

The Archdiocese of San Francisco plans to exhume the body of Friar Joseph Sadoc Alemany from his family burial vault in Spain and place it in a final resting place in Colma. He will be buried in a special chapel in the Holy Cross Cemetery mausoleum in Colma, where he will lie next to the bodies of Archbishops Riordan, Hanna and Mitty.

Archbishop McGucken said special historical and religious ceremonies will be held to mark this event.

The Rev. Joseph Sadoc Alemany, a Spanish Dominican, was Archbishop of San Francisco from 1853 to 1884. He died in Valencia, Spain, in 1888 and was buried in Vich.

A personal friend of Andrew Jackson, he had come to the United States in 1840, and was assigned to the frontier areas of Ohio, Kentucky and Tennessee. Appointed Bishop of the Catholic Diocese of Monterey in 1850, he was named to head the newly-established Archdiocese of San Francisco in 1853. Alemany saw the establishment of many secondary schools, such as St. Mary's College (later the University of San Francisco), during his administration.

rent plan provides for the enrollment of 2,000 students once the renovation project is finished.

Morgan, in a conference with principal John Mongan and architects, decided that the 20-acre site is a little small for the 2,000 student capacity. Morgan asked that the master plan be changed to allow a maximum of 1,650 students.

He said the proposed high school for the Crocker area would more than take care of the students anticipated for Jefferson High School. The Mission street school presently has an enrollment of 1,500.

The board also heard a progress report on the Jefferson project which stated that the work is still behind time, but the C. R. Roberts Company is catching up somewhat.

They observed the large meat pricing machine, and the various foods, drugs and housewares in the main store.

Monday Is Deadline For 1963 Vehicle Registration Renewal

Tom Bright, director of the State Department of Motor Vehicles, today issued a reminder to motorists that Monday, February 4 is the deadline for renewing their vehicle registration without penalty.

He also asked motorists to get new plates as soon as possible to avoid long lines that annually jam DMV offices during the last days of the renewal period.

"After midnight February 4, the department is required to charge a 10 per cent penalty on late renewals," Bright said, adding that a 100 per cent penalty will be charged on the weight fee portion of each late commercial registration.

DMV offices will close at 5 p.m. on the last renewal day, but Bright said that mail renewals postmarked before midnight February 4 will be accepted without penalty.

He urged motorists to follow instructions on the backs of the punched card renewal statements that were mailed to owners of California's nine million vehicles. This is particularly important for mail instructions, he said.

DMV advises vehicle owners who have not received renewal statement cards to bring 1962 registration stubs to any DMV office.

The department's offices will be open until noon on the next two Saturdays, January 26 and February 2, in addition to normal weekday hours. More than 140 cooperating banks are issuing plates for automobiles only, when accompanied by renewal statements. About 150 auto clubs also are issuing plates for the convenience of their members.

The State Department of Alcoholic Beverage Control has suspended the off-sale beer and wine license of Jock Li, Jim Ow and Choy Lau, 6000 Mission street in Daly City, for 10 days on grounds of sale to a minor.

The effective date of the suspension is February 5.

MRS. ANNA OHLENDORF
New City Clerk for Daly City

Mrs. Anna Ohlendorf is definitely a home-grown product.

Born in a large home on property where the Neville Ford office now is located in the 7000 block of Mission street, she has resided with her husband and family here since 1936.

Anna will take over the reins of city clerk on February 1 from Evelyn Mosman, who will retire.

Mother of a married daughter and a son, 16, Mrs. Ohlendorf resides at 321 Higate with her husband, Elmer, who is a salesman for Allied Box and Excelsior.

Mrs. Ohlendorf attended Balboa High School and Cogswell Junior College. To get experience for her first public job in Daly City, she worked for Western Girl, Inc.

She started in Daly City as typist-clerk in 1956 and was appointed deputy city clerk in 1958.

Her children are Barbara, who is married to Michael Denham, and a son, Leonard, who attends California Concordia College, a Lutheran parochial training school in Oakland. All her family ties are in this area.

"I have a pride in this city," she said.

Under her immediate wing will be three employees, including Betty Buckley, a deputy clerk trainee; Evelyn Weckerle and Frances Giese, typist clerks.

Verducci Named Peninsula Blood Bank Trustee

U. S. Simonds Jr., was re-elected president of the Peninsula Memorial Blood Bank this week at the annual meeting of the board of directors.

Dr. Robert O. Holmes was elected vice-president; Robert A. Tarver, secretary and A. H. Sagehorn, treasurer. Named to two vacant positions on the board of trustees were Ed Bauer, publisher of the Half Moon Bay Review and Mayor Jos. J. Verducci of Daly City. Dr. Ward L. Hart of San Carlos president-elect of the County Medical Society was also welcomed to the group.

George A. McQueen was named a director to replace the late Glen O. Smallcomb. The board also voted to increase the number of trustees from 29 to a possible maximum of 40.

President Simonds reported that a committee from the blood bank is working with Palo Alto-Stanford hospital center officials concerning the establishment of a branch blood bank to service that hospital.

He also noted that there were 13,428 individual donors last year, 4740 volunteer hours, 47 mobile trips and nine full time staff members.

Simonds also praised the work of advisor, Dr. Carl L. Hoag, Administrator Mrs. Bertha Hanzlik and Dr. Edward E. Tueller, director of the laboratory.

Mrs. Marina Devoulin, president of the Sunset Nursery School, and its newly elected board, have announced a series of events which will benefit the parent participation nursery school.

With the purpose of informing parents about its program of play and creative activities, and to enroll new children for the spring semester, today, January 30, has been designated as Open House from 9:30 to 11:30 a.m. and from 1:30 to 4 p.m., at the school, 4245 Lawton St. Parents of pre-school age children are invited to bring their youngsters to the school to watch the program which is geared to two and a half to five year olds.

Olympia Pupils Visit Produce Terminal in SSF

The boys and girls in Mrs. C. Rey's second grade class at Olympia School took a study trip January 15 to the Golden Gate Produce Terminal in South San Francisco to better understand the interdependence of people in a community for their food supply.

The children have studied the supermarket and are now discovering that a great number of people outside their own community are involved in producing, distributing and transporting safe, healthful food in order to meet the needs of the people.

On the guided tour through the buildings they saw produce from various parts of the country and how it was sorted and packaged. They observed boxes being loaded on trucks and the refrigerator cars nearby.

The mothers accompanying the class were Mrs. Herbert Luders and Mrs. Ralph Black.

The oldest golf course in the world was founded about 1552 at St. Andrews, Scotland.

Case of the Rolling Austin

Neighborhood Transition To Be Aired At Merced Heights Meeting

"Neighborhood Transition" will be the topic at the regular meeting of the Merced Heights Neighborhood Association Monday, February 4, at 8 p.m. at the Jose Ortega School, 400 Sargent street.

Evelio Grillo, coordinator of the Oakland Interagency Community Project, will be the main speaker of the evening.

Grillo heads the $2 million project financed by the Ford Foundation, which deals with the cooperation among agencies handling neighborhood problems, such as schools, police, recreation, health and welfare departments.

This discussion will be of particular interest to residents of Merced Heights. Problems resulting from the migration of newcomers to the central city are the main effort of the Oakland project. These same problems of social disorganization and decline in community leadership have not been apparent in Merced Heights. Since this has been an area of high turnover, however, they could result.

Where there is rapid turnover, one group moving out and another group moving in, the sense of neighborhood spirit can be lost, according to Mr. Grillo. It is this situation the Merced Heights group has been working to avoid. Their objectives have been to stabilize the neighborhood, to maintain its first class residential character, and, as stated in the organization's by-laws, "to create a climate of mutual respect." The meeting is open to the general public as well as to members of the Merced Heights Neighborhood Association.

Officers Elected For JESD Credit Union

The first annual shareholders' meeting of the JESD Employees' Federal Credit Union of Daly City was held on Wednesday night, January 23 at Abraham Lincoln Elementary School. Enthusiastic members heard Jack Reidy, California Credit Union Representative explains the functions of a credit union. A question and answer period followed the address.

Permanent officers were elected by the shareholders for the 1963-1964 period. John Spry was re-elected as president. Mrs. Geraldine Vickers was elected as vice-president, Mrs. Miriam Davis as treasurer and Carl Hunter as assistant treasurer, and Charles White as secretary.

After adjournment of the general meeting the executive board of the organization met to plan further business for the organization.

A Guinea Pig At Abraham Lincoln

When a long haired, black headed and brown bodied guinea pig came to live in classroom 8, Third Grade, Miss Lynette Hoffman, teacher, at Abraham Lincoln Elementary School, the children settled down to study the needs of living things. Since all things have a name, the class voted that the guinea pig should be called "Fuzzy." Then came the necessary shelter for "Fuzzy"—a cage was provided for outdoor activity, but "everything has a house" so the class suggested that a shoebox with both front door and back door, and a window "For her to look out," be placed in the cage. The question of food became important, so after experimentation, the students settled on a bottle of water, hooked onto the side of the cage, a container of animal pellets to provide vitamins and minerals and a daily supply of fresh carrots and celery.

With daily observation of "Fuzzy" the class has determined that animals (as well as humans) need good food, safe and secure housing, adequate clothing (nature's coat of long hair for "Fuzzy"), exercise—the confines of the cage for walking, running and hopping, and the companionship of those who are interested in its health and welfare, which is apparent in the interest and personal love the members of the class have bestowed on "Fuzzy."

Heavenly Showing

In connection with their unit on the planets the Fourth Grade Class of Mrs. Esther Turcott, Abraham Lincoln Elementary School, took a trip to the Morrison Planetarium on Thursday, January 24. There they were enthralled by the spectacle of "Veils of Venus." The two theories, advanced by scientists, concerning the planet Venus has sent the students off on an artistic as well as scientific research into the probabilities and possibilities of both theories.

The class returned to school to discuss the heavenly showing and to appoint committees to work on both theories. Serving on the "desert theory" are the following; Roland Candee, Steven Angell and Lee Koolpe. On the "water theory" are Janis O'Connell, Karen Wahler and Janet Sayre.

The remaining members of the class, being divided in their opinions, are to work as individuals in their representation of either theory.

Fitness Program

The Physical Fitness Program for 4th & 5th graders was motivated by an assembly held and conducted by Mr. Dennis Huajardo, district physical education coordinator. Students were given demonstrations of the various screening exercises. Demonstrating these screening tests were: Gary St. Clair, Debra Guldbeck, Timmy Tuttle and Alan Bauer.

Efforts to improve these tests will be conducted as part of the regular physical education program, with children encouraged to develop these skills by practice on their own.

The physical fitness events include: bar hang, skin-cat (forward and reverse), broad jump, pull up for boys, and knee push-up for girls, bent knees sit-up, 50 yard dash, shuttle run, and rope jumping.

By ARTEMUS BIERCE

My colleagues and I were sitting around at lunch the other day and the discussion naturally rolled around to the woman of today.

We began discussing their lost identity in this atomic age. She seems to have lost her femininity, or else it has become somewhat obscured by an obsession towards competition. We are not generalizing and talking about the entire female populace, but directing our comments towards the "modest" working woman who has invaded the world of business in search of equality and a stern handshake.

Here is where the paradox comes in. During the day she is out in the business world and demanding and pushing just like the boys in the rat race. She is sarcastic. cut-throat and oft times merciless in the business world.

Then at night she boards the bus, after growling for equality all day, and scowls at the men sitting down if they don't offer her their seat. She now wants to switch roles, but unfortunately, it isn't done that easily.

My colleague, A. C. Woodly, says that some of these women actually scare him and that he just can't seem to bring himself into accepting them as bubbly, feminine girls whom he would like to marry.

"The only woman whom I would stand up for and give my seat to on a bus would have to be 70 years old and prognant," says Woodly.

And the perplexing problem for men is if they, for some strange reason, acknowledged her femininity and give her a slight advantage, she will grab it and claw for more. The poor disillusioned male then comes to recognize her as a competitive colleague and treats her as such — because that is what she wants for the moment.

And here is where the paradox comes in. The woman starts screaming that men don't treat her like a woman any more and slanders the virility of the once dominant sex. Yet she wants to play the dominating role and is moving more and more towards that unenviable position.

It seems to be one vicious circle. If she demands equality and gets it, then she loses her feminity. As a result, man therefore starts accepting them as equal and oft times subscribes to a subservient role.

And as we get up to pay the bill, a woman barged in front of us and insisted on paying for the tab of the gentleman friend she was with. No doubt the same girl who would want cuddling and cooing when she gets home at night.

Let's hope that she chooses one or the other before we turn into a blubbering schizophrenic.

Idaho College Choir At Lakeside Presbyterian

A total of 18 selections will be performed by the College of Idaho concert touring choir in its program here tomorrow, Jan. 31 at 8:15 at the Lakeside Presbyterian church. The College of Idaho is located at Caldwell.

Prof. Elmer Thomas is conductor of the 44 voice group which annually tours California.

The concert will open with "O Filii Et Filiae" by Volckmar Leisring, sung in Latin, followed by Johann Sebastian Bach's "Ah Lord, Thy Sweet Angels Send" from the St. John Passion. "Crucifixus 11" by Antonio Lotti wil lbe sung in Latin. Other selections in the opening section will be "Glorious is Thy Name" by Mozart from his Twelfth Mass, Gloria from the Anton Bruckner Mass in E Minor and two Negro spirituals, "Let Us Break Bread Together" and "Evr'y Time I Feel the Spirit." Prof. Thomas arranged the first of these and Ivan Trusler the other.

"Dessen Fahne Donnersturme wallte" by Franz Schubert will open the second half of the program followed by Schubert's Trinklied, both of which will be done in German. Shalom Chaverim, a Palestine Round, done as a canon for three voices, "Hey Ho to the Greenwood," a round for three voices. "Weep O Mine Eyes" by John Bennet, "O Occhi Manza Mia" by Orlando di Lasso and four of the Johannes Brahms Liebeslieder Lawzer will also be included.

The concert will conclude with a quartet of folk songs: "Johnny Has Gone For a Soldier," arranged by Robert Shaw, "Fair Maid" also known as "A rovin'" arranged by Prof. Thomas, "Deep River" arranged by Shaw and "Ride the Chariot" arranged by William Smith.

Intermission soloist will be Prof. Walter Cerveny, a former concert violinist, and conductor of the College of Idaho community symphony.

FORMER CONCERT violinist Pro. Walter Cerveny will be intermission soloist for the College of Idaho choir concert scheduled here Thursday, January 31, at 8:15 p. m. in the Lakeside Presbyterian Church. Professor Cerveny is conductor of the College of Idaho community symphony.

Program Helps Failing Students

By David McQueen

What can be done for the student who just cannot seem to do passing work in school? Recent attempts at South San Francisco High School to find a solution have resulted in a program that has raised grades for the majority of the so-called 'failure-prone' students.

Of 113 students who have been in a special program originating last spring, 95 improved their grades. The freshman class had the greatest number of grades improved. Forty-two improved their grades. A total of 89 freshman grades were improved. Juniors were next with 55 grades improved for 30 students, followed by the sophomore class which had 20 students with a total of 40 improved grades. Eleven out of twelve seniors improved, raising 26 of their course grades.

These results were followed by the introduction of an after school-program whereby students could take a special study program. Classes met daily and a remedial reading class was provided for students with severe reading problems.

The length of time a student spent in the class was determined by the degree of improvement in academic subjects. All students who failed half their subjects had to complete a minimum of six weeks in the program.

Students with one or two F's were added to the program if their counselors felt that it would be helpful. Those students forced to participate in the program because of low grades were not necessarily deficient in ability and intelligence. Of the 113 students polled, 18 had I.Q. scores of 110 or better and averages achieved 11 per cent better than the national average on the Iowa State Development Tests, a series of achievement tests.

The Counseling Department is satisfied with the vast improvement of grades of the students assigned to the after-school program. One person improved from all F's to all passing grades on his report card. Only ten remained where they had been previously and less than one per cent received lower grades after completing the program.

According to Robert Howe, head counselor, the program was met with considerable favor by the administration and faculty. They felt that there was great improvement in terms of achievement in the majority of the students in the program. In a report recently compiled by Howe and Marlowe Tyler, a counselor, was noted, "The majority of these students' parents seem encouraged that 'the school is at last trying to do something for my child.'"

"The Academic Improvement Class," as it is now called, has changed its requirements for this year's program. Students with two F's or more are added to the class along with those students working below their individual ability levels. The student concludes the class when the instructor feels he has begun to work to capacity as shown by his academic improvement. A strict attention policy is in effect and teachers are finding the system to be a fine working organ, according to the counseling department.

The program is one way the school helps students to help themselves.

Serra Vista PTA Rag Drive Starts

A Red Cross film, "That They May Live," was shown. Hillsdale High School choir sang a group of songs.

The February 2 meeting will consist of a dinner and a tour of San Quentin.

Anyone actively employed in school lunch work may join. Ask your manager for information.

Colma Junior High Teen Clubs Elect New Executive Officers

At their first official meetings, members of the newly appointed executive councils of the Colma Jr. High Teen Clubs elected their officers for the coming year. These clubs sponsored by the Daly City Recreation Department have recently completed their preliminary organization and are setting plans for future activities.

Clubs and their elective officers are: MAJESTICS — Joe Torrez, chairman; Ron Runne, program chairman; Weda Van Randall, secretary; Vera Rendeiro, treasurer; Hayward Fontenot, project chairman; Sandra Torrez, Dan Laird, Sue Wong and Bob Landau.

CASUALIERS — Louie Chandler, chairman; Sue Themoleas, program chairman; Madelyn Martinelli, secretary; Gary Boscacci, treasurer; Sue Cheappari, project chairman; John Vennazza, Roy Sanguinetti, Jim Tredge and Alberta Ellis.

Members of the Colma No. 2 Jr. High Teen Club executive council meeting at the War Memorial Community Center have not elected their officers yet and are still in the process of selecting their name. Executive council members include Dan Hackett, Bob Banos, Jim Franco, Ellen Johnson, Carole Sraith, Mary Sgambati, Steve Bowen, Debbie Fore and Kay Keser.

The Hi-Fi Teen Club's (Senior high) executive council has invited the members of the above junior clubs to their next meeting on February 11 in order that these junior executive councils may see a council in action.

Westlake Park Clubhouse Opens Friday

The Daly City Recreation Department announces the opening of the Westlake Park Clubhouse and Park on Lake Merced blvd. for afternoon and evening recreation programs, beginning Friday, February 1.

The park and clubhouse will now be open from 3:30 to 5 p.m. and 7 to 9 p.m. every weekday in addition to the 10 a.m. to 4 p.m. schedule on weekends.

Recreation leader Tom Skinner is organizing a special interest program primarily geared for junior and senior high students during the evening hours. Tentative plans call for a special physical fitness program for boys consisting of weight-lifting, tumbling and wrestling; a special model air plane and car building session, dramatics and arts and crafts program. In addition, the clubhouse is available for a drop-in program to utilize the game room, ping pong table and juke box.

The afternoon program is being planned for the elementary school and junior high student with special emphasis in the cultural and creative programs.

A completed schedule of daily programs and special events will be announced soon.

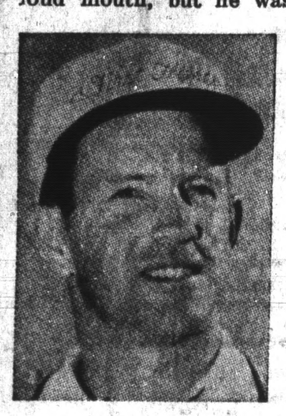
the winner's circle

By GARRY NIVER

The just concluded Lucky International Open at Harding Park was one of the most colorful and exciting sporting events of the new year.

The greatest golfers in the world traipsed the Harding fairways in quest of one of the richest golf purses and gave fans a varied opinion of the pro world of golf. Even the fans have to be commended. The many thousands who witnessed the event were, for the most part, orderly and courteous.

The crushing crowd which would ring the green when the top golfers were putting, stood still and was very quiet. Once in a while you would find a loud mouth, but he was soon so severely reprimanded with a deluge of dirty looks that he either crawled away or swallowed his tongue in silence.



GENE LITTLER
. . . ping pong stroke

The one complaint we had was the poor shape in which the greens were in. We saw one putt by hapless Gene Littler, the winner of the 1962 Lucky, which looked like a serving at a ping-pong match. The ball careened wildly towards the hole and then bounced out of its path.

The officials should rectify this situation for the '64 Lucky. This type of thing leaves a bad impression among the players and the visitors. Harding Park is part of the image of San Francisco and everything should be done to accommodate the golfing guests.

What really impressed us during the tourney was the class displayed by the golfers and the fellows who packed their bags — better known as loopos or caddies.

Arnie Palmer displayed impeccable class in his alpaca sweater. But the fellow who really played the role was Arnie's caddy. There was no doubt in our mind whose caddy he was when we first laid eyes on him.

The fellow blinded several of the galleryites with a huge flasher on his right hand. The diamond ring was almost as large as Arnie's golf ball, and when the caddy was around the green several of the spectators had to shield their eyes from the piercing 14 carat reflection. A large ruby ring adorned his other hand.

And the best dressed caddy honors must go to Tony Lema's caddy. "Tony, the Swinger," as he is known in some circles, always travels first class and his caddy was a living symbol of the first cabin status.

Tony was attired in neat and expensive black. His caddy, early in the morning, had fire engine red slacks, with a baby-blue McGregor and a straw hat. Later in the afternoon as the heat and tension mounted, the loopo shed his McGregor, revealing a matching red shirt and red cardigan. This made Lema spottable from any spot on the golf course—and almost from any spot in San Francisco.

Needless to say, this duo presented a very colorful picture against the green background of the rolling Harding Park fairways.

And we couldn't help but reminisce that Tony's caddy could very well, with a little luck, have been us. Several years ago, while were still struggling through the book-bit in college, we were a caddy at the California Golf Club in South City. And one of our on-and-off customers was the assistant pro at the San Francisco Golf Club, Tony Lema. Unfortunately, neither one of us then had the class which we possess now, and nothing ever came of our relationship.

Another colorful figure was Joe Campbell. The roly-poly blond wore quite a stunning outfit, topped off with a brown cigar which never left his jaws. He had such a tight hold on the stoogie, we wonder if and how he extricated it before he went to bed Sunday night.

—★—

ON THE SIDELINES . . . One of the committeemen in the Lucky Tourney was Guido deGhetaldi, golf coach at S. F. State and a Daly City resident. DeGhetaldi was in charge of parking and did a commendable job.

—★—

The North Peninsula's big hope in the tourney, Bill Shock, assistant pro at the California Golf Club in South San Francisco, soared to a 79 on the second day and missed the cut-off line by three strokes.

—★—

Back in South San Francisco for a visit this week is Jimmy Dombroski, former Warrior all-around sports star. Dombroski is at Williamette in Oregon and is readying for baseball.

The soft-spoken youth also indicated that former South San Francisco cage star Dick Drake and grid star Ron Witschy might enroll at the Oregon school. Witschy was a student at College of San Mateo last year.

Rams, Warriors Clash For First Spot

By Garry Niver

An air of sedateness hovers calmly over the Jefferson gymnasium this week, following one of the most turbulent and exciting basketball games ever witnessed in the North Peninsula last Friday night.

The excitement and vocal assistance of the fans rose to such a feverish pitch that the beams of the newly rennovated Jefferson gym seemed as if they were about to rock and crack. And when the smoke had settled, and the 2000 some-odd spent fans collapsed back in their seats, the Westmoor Rams had prevailed, narrowly, 56-52.

In the Lightweight contest coach Byron Van Alstyne's troops from the hilltop also won 46-45 in another thriller. Joe Lavics topped the light scorers with 14 points.

This Friday night at the Westmoor gym the Rams, who are still undefeated in league play, meet the South SF Warriors, also undefeated. While coach Tony Giamonna's Rams were ekeing by Jefferson last Friday night, the blue and white cagers from the Industrial City were rousting Oceana in the usually quiet coastal hamlet of Sharp Park, 70-39.

In other action, coach Mike Orlich's hustling cagers move down to South SF to duel El Camino in the SSF High gym. The Indians will be trying to better their 1-1 league mark.

Final action finds Terra Nova at Oceana. All action commences at 7 p.m. with the lightweight games.

The Westmoor-Warrior tilt is expected to be a duel-to-the death affair. Each team has shown power, and either is capable of winning.

The Rams will get a warmup to the Warrior game when they meet the Aragon Dons today at 3 p.m. in the Ram gym.

South SF will be bringing with them the North Peninsula League's scoring leader, Dave Parenti. The slender 5-8 senior shattered all existing records at South SF last Friday night when he pumped 19 field goals and two free-throws through the nets for an astounding 40 points.

Parenti, scoring leader in the class B league last year, eclipsed Dick Drake's mark of 34 points set in 1962 against San Mateo. Previous high mark at South SF High was 28 points, held jointly by Dean Prince, set in 1956, and the 49er's Clyde Conner, set in 1951.

Other equally dangerous Warriors invading the Westmoor gym will be Rich Mozzini, Bob Szehner and Neil McNevin.

Attempting to secure undisputed first place for the Rams will be play-maker Steve Schmuck, big center John Kelly, and forwards Mike Morrison and Bob Broughton.

It was the latter two who broke the back of the Indians Friday night. Jeff's Larry Jones, the league's jumping jack, contained Kelly, allowing him only six points. However, Broughton took up the slack and pumped in 12 points in the hectic final quarter, finishing the night with 16. Morrisoon salted away 13 points for second honors.

"It was a great team effort," replied Ram mentor Giamonna. He thought the turning point of the game was when, with 19 seconds in the game and Jeff trailing by a single point, Kelly jumped out of nowhere to block a lay-up by Jones and preserve the Ram lead.

Jones, who has come a long way since the first of the season, was the outstanding player on the floor Friday night. The senior center dominated both boards and ended up with 16 points.

Orlich termed his play "terrific" and Giamonna said that Jones "played a real fine game."

Orlich also lauded the play of Steve Willis, Duane Boden and Gary Mendoza. Willis hustled the entire game, while Boden bucketed 11 points and Mendoza 12.

Actually it was the free-throw line which betrayed the Jeffs. The Mission street boys hit 23 field goals, compared to Westmoor's 19, but could only garner 8 for 15 on the charity line. Westmoor's dead-eyed cagers pushed through an astounding 18 out of 21 attempts.

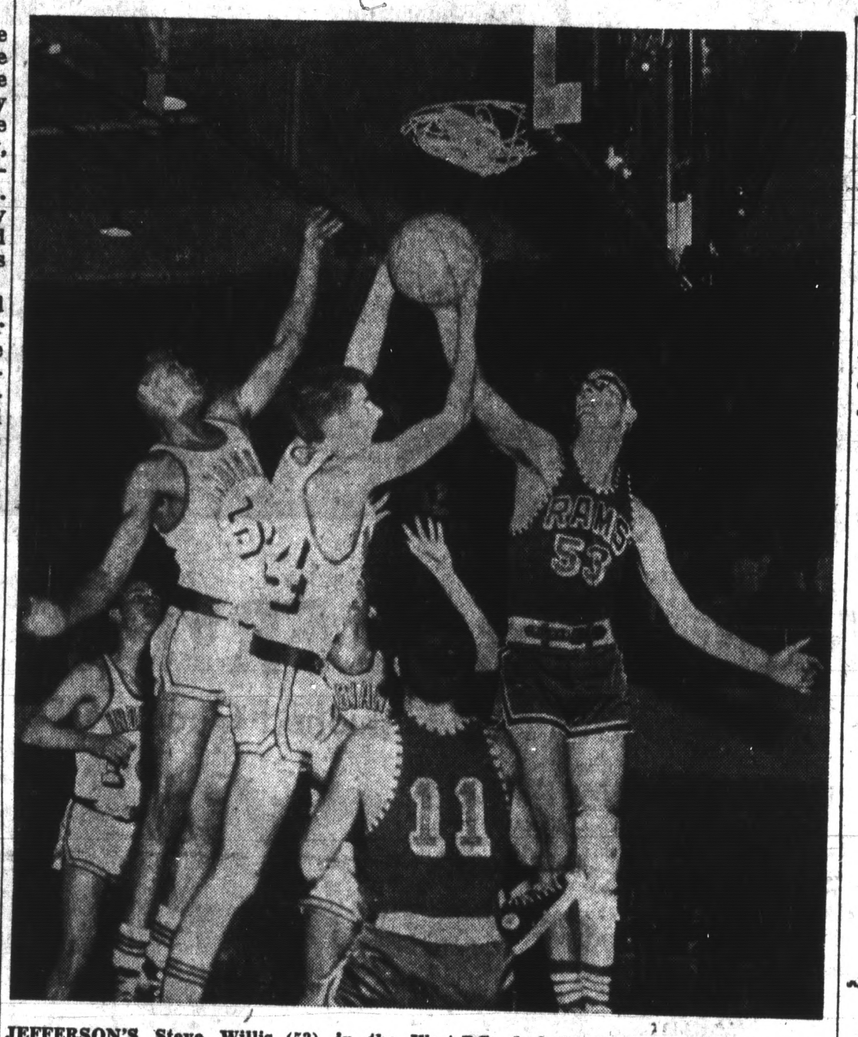
Despite Jeff's great effort last Friday night, they will have no "push-over" in meeting El Camino Friday night. Coach Gary Kenney's lads suffered their second league loss, 35-34, to Terra Nova Friday night.

But the Colts have been threatening and should give the powerful Indians a good run for the money. The scarlet and gold clad Colts are paced by Hal Westmoreland, who potted 12 against Terra Nova, and "Big Chief" Rodney Aguilera, who also scored 12 points.

Both clubs are well-balanced with the slight edge given to Jefferson.

The Terra Nova-Oceana tussle is the natural for Pacifica. It will be the first official basketball meeting of the two clubs, with the mythical championship of Pacifica up for grabs. Oceana upset TN in the NPL tourney.

The Tigers of Rich Burt are paced by Fred Mason and Joe Lieuallen. Oceana's big hopes will be riding on the shoulders of Gary Kinkade.



JEFFERSON'S Steve Willis (54) grabs a rebound away from Westmoor's Lee Graf (53) in the West-DC clash last Friday night. Looking on are Mike Morrison (11) and Mark Perry (14). Going up with Willis is Jeff center Larry Jones..

Daly City Youths Enjoy Gymnasts At Awards Night

The members of the championship teams from the 1962 Touch Football Leagues, sponsored by the Daly City Recreation Department, were presented with ribbon awards last Friday night by Councilman Frank Pacelli. Several hundred boys and their parents were present at the War Memorial Community Center gymnasium for the Award Night.

In addition to the awards, the boys were treated to a gymnastic exhibition by the San Francisco State College gymnastic team and other outstanding gymnastic stars. The exhibition was organized and conducted by Angelo Festa, coach of the San Francisco State College team. Those present saw an exhibition of free exercise, performance on the side horse and parallel bars and the trampoline, plus tumbling feats.

Outstanding feature of the show was the performance of Jim Fairchild, University of California, the NCAA Side Horse Champion.

Spectators were also impressed with the feats of Larry Butts and Paul Mayer, 15 and 16 year olds, whose skill while flying through the air is hard to believe. Steve Southwell's feats on the trampoline left the crowd in awe as he flipped and flopped thirty feet in the air. Also pleasing those in attendance was Ray Hadley, Big Ten Champion, Fred Garcia, George Wilcox and Jerry Crouse.

DC Lakers Win

The Daly City PAL Lakers, coached by Bob Kramer, recently topped St. Brigid's CYO quintet 39-33 at the Cow Palace for their ninth straight victory.

The game was the preliminary contest to the SF Warrior-Boston Celtic tilt.

Fitness Track Meet At T. Edison School

The intramural track and fitness meet, which began last week at the Thomas Edison Elementary School, continues to enjoy tremendous popularity among the students.

The events are being held during the lunch play period.

School principal Harry Aronson and athletic director Bruce Russell are proud of the students' performance in the fitness program. In comparison with California fitness norms for youngsters in these age groups, the majjority of the Thomas Edison students are displaying strength, agility and endurance above the 75th percentile score.

Winners and records of events which have been held are:

Standing broad jump (girls) —Susan Noffsinger, 6' 9"; Teresa Corcoran, 6' 7"; Vivian Goldman, 6' 2'.

Standing broad jump (boys) —Gene Taylor, 6' 5½"; Martin Conn, 6' 3⅛"; Russ Somdahl, 6' 2½".

Sherith Israel Knights Down Holy Angels

The Holy Angels Colts and the Sherith Israel Knights battled back and forth in a close one this week with the Knights winning, 32-24.

Deciding the game after the lead see-sawed back and forth was Don Strauss with 15 big points for the Knights. Strauss came through with six points in the final minutes to kill any chance the Colts had of catching up. Berry Gevertz helped out Strauss with ten points. Timmy Dillon, Colts star, was high with nine points as his team went down, 32 to 24.

Pouring it on, the OLPH Hilltoppers this week, Gary Ciardella of the PAL Vikings hit 24 points during his team's 53-5 win. Ciardella, Micheletti, Hector, Walorinto, Morch and Campos all scored well for the Vikings.

Returning to the win column again this week, the OLM Hawks kept their record clean by downing the PAL Warriors, 33-21.

Speith hit seven points to become high man for the Hawks. Steve Gilmore was right behind with six. Bareagan paced the Warriors with six points.

Abe Shaffer put in another outstanding game for the BYA Bender Roofing Cats. Shaffer collected 11 points as the Cats clawed the PAL Jets, 26-20. Shooting by Joe Carrera, David Belli, Rich Polonsky, Phil Litman, Rick Kary and Shaffer kept the big Cats out in front. Jets play was consistent with Papes, Smith, Brandgorg and Long scoring well.

Upsets Highlight Rec Leagues

Ben Franklin's White Falcons pulled the rug out from under league-leading OLM's Angels this week, 40 to 35. George Garber hit 15 points to earn him high honors.

Steve Green of the Angels dropped in 10 points for his club. Mark Ewing of the Angels hit seven for his team. J. Piercy, W. Smith, J. Williamson and L. De Roo all hit well for the White Falcons.

Hero of the week honors go to George Garber and coach Rae Sammons for their team's underdog victory.

Allen Olcese and company moved in on the MHR Chiefs this week to the tune of 42-26, points in the PAL Bears win. Bob Nolan took over for Ron Cazarasa, who was missing this week and hit 12 to help the cause. Barbaria and Genova hit five each to be high for the Chiefs.

Cooling off the BYA Hotshots this week were the PAL Wildcats with a 20-14 victory. Matty Russo, Jon Godin, Greg King, Frank Nappi, Steve Wayne Silber all had a big hand in the win. There was no single big scorers for either team.

BYA Aero Motors creamed the OLPH Goolds in their game, 33-11. Gudelj and Christin were the only Golds to hit the basket. Gudelj had eight, and Christin had three points. The win was highlighted by the shooting of Noffsinger (7), Salinger (6) and Fieldman (6) for Aero Motors. Stang, Ragland, Brenk, Plyer, Bushmer and Witcher all did their part for BYA.

New Pisa Blues swamped the BYA Matadors, 39-8, in their effort of the week. Albert Hom led his team again this week with 15 points. Teammate Koolin Tong backed him up with ten points.

FIFTH GRADE LEAGUE

The PAL Jaguars and the OLPH Bumble Bees had a nip and tuck battle this week as both teams went after their first win, with the Jags winning, 50-47.

Tim Denning of the Bees opened the game with two fast field goals. Clark and Martin added one each for the Bees.

Jerry Mahood of the Jaguars put them on the board with two field goals in the first quarter. Botai, Franco and Sherbert tied up the score in the second quarter as Denning was the only Bee to find the bucket in that period.

The third quarter saw Proctor and Haymaker add a field goal each for the go-ahead point as Denning was the only OLPH man to hit. Sherbert and Goldberg iced the game in the last quarter as the defensive work of Gray, Stura and Tomasello held the Bees' hotshots in check throughout the game.

The OLM Gaels rambled over the Holy Angels Lions this week, 50-11. Phillips was high point man for the Geals with 12 as all his teammates scored with ease. The overwhelming height of the Gaels and the sharpshooting of Glisinski, Becker, Gordon, Taboni, Pidgon, Martin, Churchwell and Sarotti was too much for the Lions.

Larry Belfrage, Fred Balletto, Mike Kosturos, Mike Larios, Gary Wiener and Mike Dikas took the play away from the OLM Dons this week with a 39-21 win for the PAL Eagles.

Belfrage and Balletto each scored 12 points while Kosturas hit eight. The Eagles went out in front in the first period and stayed there. Kadlak was high for the Dons with five points. This win has the Eagles pointing towards their big one with the Gaels next week.

SF State Hosts Alameda Tonight

The SF State Gators, lead by high scoring forward Brad Duggan and blitzing guard Mike Carson, will play host to title contending Alameda State, tonight, Jan. 30 at 8 o'clock and tough U. C. Davis cagers, Friday, Feb. 1 at 8 p.m. in two crucial Far Western Conference cage contests.

Head coach Paul Rundell and his cagers travel to Stockton Saturday, February 2, to meet the University of the Pacific in an intersectional battle. Following their mid-year rest and final examinations the Gators had to settle with a split as they were outscored by Cal Poly of Pomona 71-61, but came back like "charging Gators" to down nationally ranked Chapman College 71-51 in two weekend tussles.

Once again it was the scoring of Duggan and Carson, Nor-Cal's co-players of the week, that gave the Gators their victory in the Chapman contest. Center Mahlon Harmon's 22 point putout against Cal Poly was his personal high of his Gator career. The mall handling and team work of Forward Jim Cunningham and Bill Nocetti, guard, continue to keep the Gators strong offensively and a steadingly improvement in the defense department. Statistically speaking the work of Duggan has been short of amazing. The 6'4" Gator tower of cage strength leads the cBay Area players in all departments. Twice this season he has hit 30 points in a contest.

New Sprinkler System Renders SSF's Orange Park 'Inactive'

It will be a long, dry winter at South San Francisco's famed Orange Avenue Park for sports enthusiasts, according to the recreation and parks department.

Long in the anticipation and dreamed of stages, a $25,000 automatic sprinkler system will be installed at the park this winter with work getting into full swing immediately.

Work has begun on the baseball field and picnic area while laying of the system on the soccer field should be underway by Friday, February 1.

"All sports-play activity at the baseball and picnic areas will cease immediately, with the reopening of these areas anticipated for March 1," stated Bob Maxey, superintendent of parks and recreation in South San Francisco.

"Activities in the soccer area will be cancelled throughout the month of February. We are hoping that with the cooperation of the weatherman and the people of South San Francisco, the transition to automatic sprinklers can be made with the least possible inconvenience to all concerned," Maxey said.

Matt DeBernardi Paces Big Warriors Past OLPH

Matt De Bernardi took off in a blaze of points this week, 21 to be exact, while his team, the PAL Big Warriors, took advantage of his point splurge to roll over the OLPH Alley Cats 58-11. Ken Smith hit 10 for the Big Warriors while Reed Rosenberg, Bruce Brinkenhoff, Jeff Long, Dean Taylor, Mark De Bernardi, John Gray, Joe Rahmar and Greg Plattner contributed. Chelone and Burgess played well for the Alley Cats but they missed teammate Parodi, absent this week.

Highlight of the PAL laker-New Pisa Reds game was a tremendous half-court shot just before half time by Felix Bria. With 10 seconds to go, Bria let fly and cut the center of the hoop. In spite of Bria's effort, the Reds went on to win the game 37-32. Alton Weipah, Red's sharpshooter, nailed 16 points while teammate Dare Calvert was good for 13. Telvis Jones was high for the Lakers with 9. This win shows New Pisa to be the team to beat in this league.

The Cinderella boys got tromped this week. Mike Wynne and the PAL Tigers left their tracks all over the PAL Vultures 42-27. The Vultures have in the past shared the scoring equally. This week Keith Stoller was high with 10 points but his teammates could not contribute enough to catch the Tigers. Wynne of the Tigers was high with 10 but his teammates came through with the points needed to go ahead.

Mike Rossi, Mike Madigan, Duane Morin, Jim Davis, Joel Weinbergand, Don Alberti chalked up an easy win over the Ben Franklin Green Falcons 54-25. Rossi was high with 14 while Madigan and Morin hit 10 each. Nick Budea hit 12 for the Green Falcons. Rossi, Madigan and Morin of the OLM Saints look like they will give much trouble to league teams.

PLYMOUTH BEATS FORD AND CHEVROLET IN 8 OUT OF 10 OFFICIAL TESTS

Plymouth once again proves all-around superiority against its competition. Handling, safety, performance, economy—all of these were measured in the second meeting of Ford, Chevrolet and Plymouth early in December at the Riverside, Cal., test course. In a "Showdown" asked for by Plymouth, a 1963 Plymouth Fury V-8 whipped a comparably equipped Chevrolet Impala V-8 and Ford Galaxie "500" V-8 in eight out of ten official tests.

Nationwide Consumer Testing Institute bought the cars, hired the drivers, supplied the officials, made and enforced the rules. The chart at right leaves no question about the results. Plymouth excelled in all-around performance and economy. Add in Plymouth's good looks and 5-year/50,000-mile warranty*. See your dealer. Plymouth's on the move.

WOMEN'S ACTIVITIES

From A Feminine Viewpoint . . .

By Mona Baker

"Sweethearts on Parade" is the theme — Valentine red hearts will be the decorations—February 16 is the date for the second annual fashion show of Skyline Assembly Rainbow Girls.

Clothes to be shown include sleepwear, sports and formal from Kings Campus Shop. There will also be special entertainment with Pat Harrah as soloist. Models include: Donna Neugebauer, Carol Vanham, Nancy Danielson, Dorothy Getchel, Carol Hilton, Trudy Josselyn, Shirley Hendrickson, Sue Duport, Nancy Jarvis, Marilyn Hunt, Janice Washburn, Mary Merkle, Ruth Ann Hulse, Dawn Klevesahl, Arleen Plansky, Eugenia Murphy, Mimi Ettlinger, Phyllis Diltz, Sharon Ellingson and Joanne Gamblin.

Skyline Assembly has been organized for more than four years in the Daly City area. During that time they have had a full schedule of social and philanthropic activities in addition to their lodge work. Membership is open to girls between the ages of 12 and 20, daughter of a Mason or friend of a Rainbow Girl.

The fashion show will be held at Crocker Masonic Temple, 17 Hillcrest drive, beginning at 2 o'clock and tickets will be available at the door. Tea and refreshments will be served following the show. Cheryl Neubegauer is chairman, assisted by Marilyn Hunt.

Practically a lifetime of unselfish service to her community is represented by our community leader of the week who has lived in the Daly City area since 1938.

In answer to our question, she told us "I've worked for 22 years on fun drives," serving in various capacities. In addition, she has given hundreds of volunteer hours to local organizations. She received the 20-year pin of the Girl Scouts and has an honorary life membership from PTA. She has been welfare secretary for nine years of the Salvation Army Service unit, held offices in the Daly City Garden Club and Friends of the Library. She is now vice-president of the Lioness group, and needlework chairman of the California Club.

We salute our community leader of the week, Ann Ingersoll, who should certainly be an inspiration to new residents who are interested in serving their community. Mr. and Mrs. Lyal Ingersoll live at 489 Crocker avenue. Their son, Ira, is married and they have one grandchild, Debbie.

Calling all Hollywood movie scouts! If you happen to be around the Daly City area on February 5, do drop in at the Crocker Pershing PTA. There you'll find Lillian Russell and a chorus of "Gay Nineties" beauties. Patti Stolz (alias Lillian) and the Daly City Belle-Tones, sponsored by the Daly City recreation department, are presenting "Songs of the Gilted Age" complete with script and costumes. They will repeat the same program oon February 14 at Jefferson High School.

New members of the popular singing group include Westlake residents Betty Vincent and Karen Brunswig, and from St. Francis Heights, Constance Kaiser and Anne Dissing.

—★—

"How Now Fat Cow" began the news release. Intrigued we read further to discover the letter concerned the activities of the "Always Budget Calories Club, Branch No. 1," a local club aimed at helping overweight women lose weight through group meetings and discussions. They are "on the prowl for new members." If you are at least 25 pounds overweight and interested in participating in the club, telephone organizer, Mrs. Charmion Barton of Daly City at JU 6-7693. Meetings are held Thursday afternoons at 1 p.m.

SOCIAL WHIRL: All last season winning trophies were on display when the "Coast 13 Association" held their annual pot luck dinner last week at Wawona Clubhouse in San Francisco. Elected president of the sailing association for the coming year is Jack Kimberly of Westlake.

Hostess last Friday at a Hawaiian-oriental party for the Lambda Tau Delta Sorority was Mrs. Elvera Sunnell of Westlake. Three members birthdays were celebrated, Helen Thaler, Evelyn Farlow and Elvera Sunnell. Dorothea Keenan created the clever Hawaiian decorations.

FASHION NEWS: Planning a weekend in the snow? To be a genuine "snow bunny" you must wear fur on or with your ski ensemble. Quite dramatic and warm too, the new shaggy fur hats. A simple and less expensive way to dress up your ski outfit. Buy some rabbits' fur (it comes by the yard and is not too expensive) and tack around the top of your mittens, hood or the bottom of your jacket. Make a fur ring to wear over the top of your boots.

—★—

NEWS BRIEFS: Next on the social calendar of the Lake Merced Sailing Club is a family snow trip scheduled for February 9.

St. Mary's Hospital College of Nursing Alumnae Assn. will hold a communion breakfast at St. Mary's Hospital Chapel, this Saturday, Mass 10 a.m. For reservations call Mrs. A. Garrissere of Broadmoor at PL 6-4722.

Off to Alaska for six months are Mr. and Mrs. Lee Miller of Westlake. Lee is with Standard Oil of California.

Mrs. Larry Christiansen of Westlake "enthusiastically accepted the job of hostess for the February 12 meeting of the Newcomers Club despite an unfortunate holiday fall which sprained one ankle and broke the other."

Truly a continental luncheon with such delicacies as "boneless chicken leg stuffed with rice pilaff," "chauteau sauce with hot grapes" is planned by Holy Angels Women's Guild for their coming February 16 fashion-luncheon show at the Fairmont Hotel. A colorful and brilliant contrast to the stark white of their Grecian robes will be a basket of flowers carried by each hostess.

Shiela Kobus Becomes Bride Of Larry LaPointe

By Bunny Gillespie

Blue and white nosegays decorated the pews of St. Veronica's Catholic Church recently as Sheila Rae Kobus became the bride of Lawrence James LaPointe. Elsewhere in the sanctuary were arrangements of white stock and carnations.

The bride, given in marriage by her brother, Lewis Wilber of San Mateo, is the daughter of Mr. and Mrs. Edward Kobus, 335 Rockwood drive, South San Francisco.

For the double-ring ceremony, Sheila donned a full length gown of white satin, styled in a princess motif with a scooped neckline and long sleeves ending in points over the wrists. Alencon lace, embroidered with seed pearls, trimmed the bodice and the skirt, which ended in a full chapel train. Her veil was elbow length and held in place by a small princess crown of pearls with crystal accents. She carried a shower arrangement of white carnations that was centered by white orchids and baby roses.

Sheila was preceded down the aisle by three feminine attendants attired in sapphire blue satin princess-style frocks. Their dresses had elbow length sleeves, scooped necklines and controlled full skirts featuring a shepherdess back, highlighted with a large self bow and streamers to the hem. Their tiny pillbox hats were of matching sapphire blue, securing short veils.

Maid of honor at the 11 a.m. nuptial mass was Catherine Halle of SSF. Her bouquet was of white carnations bordered in yellow. Bridesmaids were Judith Blanton of SSF and Carol Braidy of Walnut Creek, who carried circular designed nosegays of yellow carnations, ringed in white.

For his best man, Larry, who is the son of Mr. and Mrs. Jack LaPointe of San Francisco, and the brother of Steven La Pointe, asked Kenneth Colson of Moss Beach to serve. Ushers were Allen La Pointe, the bridegroom's other brother, and Lawrence Betrozoff, both of San Francisco. Officiating at the ceremony was the Rev. Thomas Burns.

Before departing for their honeymoon in Southern California, the new Mr. and Mrs. LaPointe greeted friends at a reception given in the afternoon at Moore's of Belmont. To greet guests the bride's mother selected an ensemble of blue and orchid silk while the bridegroom's mother chose royal blue with green brocade.

The reception followed a wedding brunch given in honor of the newlyweds and their wedding party at the peninsula home of the bride's mother and sister-in-law, Mr. and Mrs. Wilber.

Sheila, who is also the sister of Donald L. Wilber, was graduated from Mercy High School in Burlingame and attended San Francisco City College. Her sorority was Alpha Gamma. Larry, who is completing studies towards being a geophysicist, is an alumnus of Balboa High School and has furthered his education at SFCC, the University of Nevada and San Jose State College.

The new Mr. and Mrs. La Pointe plan to make their home in San Jose.

A THREE-TIERED WEDDING CAKE was shared with guests after the recent marriage of Mr. and Mrs. Lawrence LaPointe. The bride is the former Sheila Rae Kobus. (Photo by Staggs Studio.)

The Pacifica Federated women's Club has voted unanimously to adopt a community improvement program.

The program that the club will devote its efforts to is the community center needed by the residents of Pacifica.

The club will join with the many other organizations in Pacifica, and it is hoped that through their combined efforts the goal will be achieved.

Many small cities in the United States have, through a community improvement plan, beautified unsightly areas, established libraries, formed centers where children can spend their idle hours, etc.

In Pacifica, the need for a community center is urgent and the goal of the Pacifica organizations.

Betsy Day will represent Women's Club at community meetings and will report any progress toward the ultimate goal.

Y-Wives To Hear Bonsai Expert

"We're in luck" said YWCA's coordinator Mrs. Edward Raymond, "Mrs. Melba Moore has consented to give the Westlake's Y-Wives a few secrets on the Japanese art and specialty, Bonsai trees!"

Mrs. Melba Moore is the co-owner of Moore and Masters Bonsai Nursery in Burlingame where there are many interesting displays on Bonsai trees. Mrs. Moore has showings of Bonsai trees in many nurseries in Oakland and has entered flower shows in many communities.

Creating Bonsai's and arrangements, the sizes and the shapes will be a few of the topics to be dsicussed in this field.

The program is open to all women in the community and will be held at the Westlake Bowl's banquet room Monday from 9:30 to 11 a.m.

A fifty cent fee covers the facilities used, coffee and tea served and the nursery which is provided for the pre-schooler.

Dealer Speaks Navajo Language, Builds Success

Fluency in the Navajo Indian tongue has helped Enrico Menapace become one of New Mexico's most successful auto dealers.

Menapace, owner of Rico Motors (Oldsmobile - Buick-GMC) has been in business for 44 years and has New Mexico's oldest automobile dealership.

He built his success on a lively trade with the Indians, 90,000 of whom live on a reservation near Gallup. When he speaks of horsepower it might be about the engine power of a new truck or the number of horses being accepted as a down-payment — he has accepted livestock in lieu of cash down-payments throughout his career.

Menapace has now added the Toyota Land Cruiser to his line.

Motorola Lists 2-Year Warranty On Auto Radios

Motorola has issued a two-year full warranty on all car radio merchandise parts, labor and reinstallation on its 1963 auto radio line. The warranty has no mileage limitation.

C. J. Gentry, national car radio sales manager, said 17 new car radios plus five carry-over models comprise the 1963 line. All of the 17 new models are fully transistorized.

The leader model, for 12-volt domestic autos, has a suggested list price of $29.95. Every model priced above $49.95 features push-pull audio output.

In six-volt radios, Motorola has introduced a leader model at $39.95 and features a seven-transistor chassis with one thermistor and two diodes. It is designed for older domestic cars and six-volt imports.

British Motor Corp. Streamlines Distribution Setup in United States

The British Motor Corporation, Britain's leading auto manufacturer, has streamlined its distribution set-up in the United States in a bid for a bigger share of the imported car market.

Imports of BMC cars into the United States will be handled through an organization to be known as The British Motor Corporation/Hambro, Inc., which will have its headquarters at Ridgefield, N.J.

H. J. L. Suffield is president of the new company. Although he has moved to Ridgefield from Toronto, Mr. Suffield will continue as head of BMC operations in Canada as well as the United States.

The British Motor Corporation/Hambro, Inc., will direct the distribution of BMC cars through a network of 12 regional distributors and 575 dealers in the United States.

The new set-up will replace Hambro Automotive Corporation, which was formed shortly after World War II by Hambros Bank, Ltd., of London. Hambro had its headquarters in New York.

BMC is one of the largest industrial firms outside of the United States and one of the world's major auto manufacturers. It is the third largest importer of cars into the U.S. The BMC line includes: MG, Austin Healey, Sprite, Morris and Princess.

Known in the U.S. primarily for its sports cars, BMC recently introduced the revolutionary new MG 1100, a compact sedan with a much-talked-about "Hydrolastic" suspension and crosswise-mounted engine with front wheel drive, as well as two new sports cars—the MGB and the Austin Healey 3000 Sports Convertible.

Mr. Suffield said: "The MG 1100 Sedan has caused a great deal of excitement in this country as well as abroad since its introduction, and we are confident that it will help to increase our U.S. sedan sales substantially. Initial dealer orders for these low-priced quality cars justify our optimism.

"In addition, our four sports cars—the Sprite, MG Midget, MGB and Austin Healey—give us a fine array of cars fir increasing our share in that specialized market," he said.

BMC was formed in 1952 by the merger of the Austin Motor Company and Morris Motors Limited. The company is producing currently at an annual rate of 750,000 vehicles and is aiming at one million annually.

It has 80,000 employees, 15 factories in Britain and 30 assembly plants throughout the world. More than 110,000 shareholders own the company. BMC also produces trucks, buses, tractors, marine and industrial engines, washing machines and sink units.

Forty-six per cent of all cars on British roads are produced by BMC. More than 40 per cent of BMC's production is exported to some 150 countries.

DON'T CROWD A TRUCK

Don't crowd the rear end of a truck that you are trying to pass, advises the National Automobile Club.

Stay far enough behind to allow yourself plenty of room to pull back into line if the way ahead should be blocked by an approaching vehicle.

A division of one automobile company uses 131 acres of reproduction paper each year, according to the National Automobile Club, to duplicate engineering drawings for distribution throughout the company.

Junior Teen Clubs Hold Successful Meetings

The newly formed junior high teen clubs, serving Daly City-Broadmoor students living west of Junipero Serra blvd., completed their second night of activity last Friday with enthusiastic crowds at each of the three sites—Westlake Park Clubhouse, Ben Franklin and Abe Lincoln School's multi-use rooms.

Mixer games, dance contests, door prizes and dancing were featured activities at each of these groups organized and sponsored by the Daly City Recreation Department.

Temporary committees from each of the clubs are working with club advisors to plan the next meeting scheduled for Friday, February 8, 7 to 9 p.m. Highlight of the next meeting at each club will be the selection of a club name and nomination of executive council candidates. The opening membership drive will continue for two more meetings before closing for a two month period.

At the newly reorganized Ben Franklin Club No. 3, meeting now at the Abraham Lincoln School multi-use room, Pat McGue and Rich Wilson were the twist contest winners while Chuck Warfel was the limbo rock champion. Jim Navaro, Gale Dessler and Don Saol were winners in the door prize and bean game contests. Forty-five records were presented to these members as well as to winners in the spot dance and freeze contests.

Entries Taken For Teen Choral Groups At Cow Palace Hi-Fi Show

"Fame and fortune" in the guise of a radio broadcast and a complete stereo recorder and playback machine will go to the school of the winning Bay Area senior or junior high school choral group appearing in the forthcoming San Francisco Bay Area Decorators and Hi-Fi Show a cappella competitions.

A number of entries from choral groups representing junior and senior high schools around the Bay Area have already been received, according to James Logan, producer of the Decorators and Hi-Fi Show which will be held at the San Francisco Cow Palace, March 6-10.

Any choral group of junior and senior high school students in the Bay Area, who sing without accompaniment, may enter the a cappella competitions by obtaining entry forms and instructions from their schools or by writing to Decorators and Hi-Fi Show, 456 Fulton Street, San Francisco, California.

The deadlines for entries to be submitted has been extended to Tuesday, March 5.

The director of the winning student choral group will be presented with an Ampex 1270 stereo recorder and playback with speaker and amplifier for his or her school along with a trophy and certificates for each member.

In addition, the winning choral group will have its performance broadcast over radio station KPEN-FM, on Sunday, March 10, between 2 and 4 p.m. The finalists in each day's competitions will also have their performances tape recorded and broadcast over KPEN-FM between 10 and 10:30 p.m. Judging will be based on the tape recording.

PIE TOWN

Pie Town, located in New Mexico, is reported to have received its name because the owner of a mining claim near the site was in the habit of baking luscious pastry for travelers and nearby citizens.

HIGHEST WATERFALL IN YOSEMITE PARK

The Ice Age produced in Yosemite National Park the world's greatest concentration of free-leaping waterfalls. Ribbon Falls, 1612 feet, is North America's highest falls. The erosive glacial action that created the breath-taking beauty of Yosemite also determined that eight of North America's 13 highest falls would be in that valley. Niagra Falls, 167 feet high, is the lowest waterfall of note in North America.

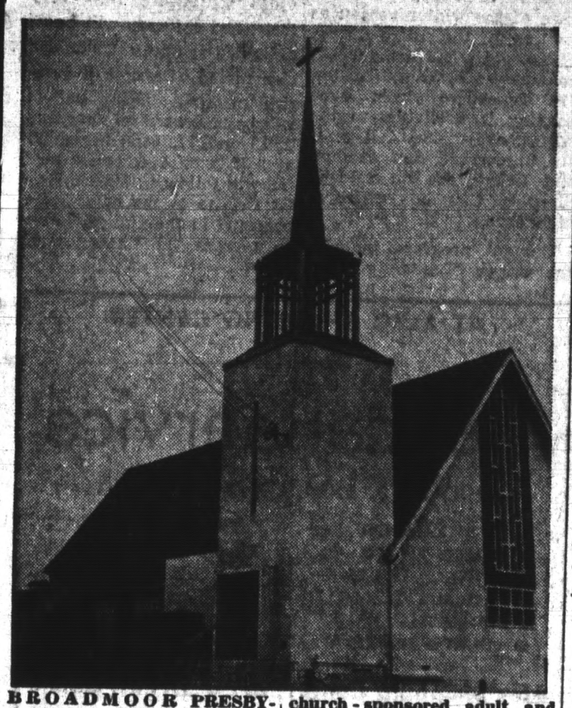
CHURCH EVENTS



BROADMOOR PRESBYTERIAN Church was formed in 1949 with a congregation of 85 members. The church now has 603 members. Several church-sponsored adult and youth groups meet for inspiration, Christian service and fellowship.

B'moor Presbyterian Church Formed in '49

(Editor's Note:

This is the first of a series of histories of churches in this area to be published weekly in the Times-Record.)

The Broadmoor Presbyterian Church, 337 87th street, was organized by Rev. John Glasse who came in the fall of 1948 from the Presbytery of San Francisco. In May, 1949, a congregation of 85 members was organized.

In the beginning, quonset hut type buildings were moved from in front of the property for temporary housing. These buildings had been used in organizing the Lakeside Presbyterian Church.

In 1952 the three-story educational unit was completed. The interior of the building was completed over the next year with the help of many residents of Broadmoor. This building was also used during the week for public school classes for 13 years. It was known as 87th Street School and was a part of the Jefferson Elementary School District.

Rev. Glasse terminated his work here in February, 1947. The Rev. Dr. Harberts was interim pastor for six months. The three-story addition and sanctuary were completed and occupied in May, 1947.

The Rev. Herbe Tweedie came as pastor in 1957 and continues in this capacity.

Fellowship Meetings

The church now has 603 adult and youth members. There are 517 pupils and teachers enrolled in Sunday school. The church has two worship services and two Sunday Schools each Sunday morning, including youth classes.

On Sunday evenings there are activity meetings for junior, high school and college age. There are four choirs, directed by Delmar Severy, known as the Cherub, Jr. Youth and Adult choirs. Boy Scout Troop 84, Cub Pack 84 and Explorer Post 84 are sponsored by the church in cooperation with the village churchmen.

The men's group meets monthly for a dinner and program. The Women's Association meets monthly and also has four circle meetings which gather monthly in homes. There is also a monthly meeting for married couples, known as Voyagers Mariners. These groups gather for inspiration, Christian service and fellowship.

Representative Form

In addition to these regular meetings, there are church family nights, with potluck suppers, home bible study groups, mission study sessions and vacation schools and camp conferences.

The Session is the main ruling body of the church (composed of 12 elders). Other ruling bodies include the board of deacons (12 women) and board of trustees (6 men).

The word Presbyterian comes from the Greek word Presbyter, which means elder. This Biblical term was used for those chosen to lead a life in the congregation. This developed into a representative form of government which has the Presbytery or counties area, the senate or state area and the general assembly similar to Congress.

This form of government began with John Calvin in Geneva, Switzerland during the Protestant reformation in 1655. Thus the church emphasizes education, and individual responsibility in the expression of the Christian faith . . . through the church of which Christ is the head and the Bible the authority.

Operation "WRAP" Is Success

The board of deacons of Broadmoor Presbyterian Church, Colma, announced the successful completion of the church's November-December clothing and blanket drive, held for Church World Service, a Protestant distribution agency for Overseas Relief.

Dubbed Operation W.R.A.P. at the 87th street church, the drive netted over 300 pounds of clean, mended clothing and blankets destined for victims of the Iranian earthquakes, Cuban, Algerian and Arab refugees. According to chairman Fran Dethlefsen, the initials stand for warm repairable apparel procurement, strictly a local designation. A similar program last May-June resulted in some 400 pounds being delivered to the forwarding depot at Modesto.

Members of the board of deacons received, assembled and packed the clothing gifts for shipping under Mrs. Dethlefsen's direction.

This coming Sunday, February 3, the deacons will host the monthly "Friendly Time" gathering, held between and after the twin morning worship services at 9:30 and 11 a.m. Held on the first Sunday of each month, the informal fellowship times permit coffee, cookies and conversation to broaden acquaintanceship of the members and friends of the local congregation.

Bea Hicks and Dorothy Edwards will serve following the early service, with Jean Frisch and Charlotte Spruiell at the post-second service get-together.

Rev. Herbert Tweedie announced baptism of babies and reception of new members at the second service of February 3. Additionally, two teams from Broadmoor Presbyterian Church have been entered in the Church Basketball League, under the direction of coach Bob Coghlan, assisted by Ray Corona. The teams play quintets from San Francisco and the Peninsula churches, junior high age and high school and adult age. Rev. Tweedie concluded: "For the past few years, under Bob Coghlan's leadership, our teams have finished quite high in what you might call ecclesiastical circles."

A course in World Literature will be added to the offerings of the English department during the spring semester at the Evening College of the College of San Mateo this year.

Scheduled for Wednesday evenings in room 14-E on the Coyote Point campus, World Literature will be taught by George Short, chairman of the English department at Mills High School and a popular lecturer in the humanities at the Evening College faculty.

Educated at Occidental College, the University of California and San Francisco State College, Short has been instrumental in advocating the study of world literature in secondary education, and has already initiated a pilot program in the subject for seniors at Mills High School.

Ballet Celeste At Harding Theatre

San Francisco's own Ballet Celeste leads the city's cultural activities with a full schedule of ballet for the balance of the winter season as well as for the entire spring. The company performs weekends at the Harding Theater, 616 Divisadero street. Free parking is available on the Hayes street side. All seats are unreserved, tax exempt, and tickets are on sale at Sherman Clay box office at $1.00 each.

Current program includes the classic "Les Sylphides," the exotic "Tzar-Saltan," and the universal favorite, "Peter and the Wolf." This bill provides something for every taste, and children will be as delighted as adults. Color and rich melody keynote the entire offering. These ballets will be presented on February 2, 10 and 17, each beginning at 2:30 p.m. A complete new bill will follow in March. Ballet Celeste is the only dance company in the United States to present 33 weekends of ballet.

Annexation Ahead?

At the invitation of residents of the Bayshore area, Daly City has jumped into the annexation of the bay-side community. At stake is $4½ to $5 million in assessed valuation plus valuable industrial land.

This move may answer the long-felt need for industrial property in Daly City, highly desirable for its strong tax base. The proposed annexation is approximately 20 per cent industrial and contains such companies as Crown Cork and Seal Company and the Pacific Gas and Electric Company.

The Bayshore district also has good water, utility and fire service which could be incorporated into the Daly City structure very easily.

The one fly in the ointment is that the City of Brisbane wants part of the same area which Daly City seeks — that portion west of old Bayshore highway.

Looking at the proposed annexation from every viewpoint, we favor the move. Bayshore is already part of the Jefferson High School District and will probably included in the proposed Unified District. From this there is already a close relationship between Bayshore and Daly City.

Postage Hike and You

Jan. 7, 1963, may go down in history as Stamp Act Day in commemoration of Another Consumer Tax — a one cent hike on every letter or postcard you mail. In addition, you may even pay more for mail you receive if your newspapers and magazines are forced to raise subscription rates to cover postage increases.

The increases were intended to produce new revenues of $603 million to balance the postal budget. But Congress came right back with another deficit by tacking on a wage raise of $368 million for postal employees which you, the taxpayer, will eventually have to pay. We don't quarrel with the wage boost for postal workers because we assume Congress checked that out carefully. Our quarrel is with significant lack of increased productivity per postal employee. Failure to mechanize is the prime cause of this productivity problem.

It was not until 1920 that the Post Office got its first mechanization—the postage meter, which Congress authorized private industry to use to cut down on some Post Office operations. It has done little else in the way of mechanization to eliminate many manual chores.

That same year, 1920, the telephone company started installing dial telephones, to the consternation of many who felt that great numbers of the then 292,000 telephone employees would be thrown out of jobs. Now the automatic telephone is almost universal, the service is greatly improved, the cost of a coast-to-coast call is only $2.25 as compared with $16.50 in the '20s and, most important, the company employs 730,000 persons—two-and-a-half times the 1920 number. Without the dial system, perhaps every single woman in the nation between ages of 18 and 30 would have to be employed today to handle the 90 billion calls made annually.

In the same period, the Post Office has retained its long outmoded hand operations, even though it has examples aplenty that mechanization increases, rather than decreases, jobs, while cutting costs to consumers. At the rate it is moving, the Post Office soon will be a shrine of antiquated industrial Americana—if it isn't already.

The word ACT in Stamp Act can be meaningful if you will act now to let your Congressman know that you insist on a postal system as modern as America itself.

Oil On The Menu

The report that scientists believe they have taken at least the firt step toward creating a new source of nutritious food from — of all things —oil, has some enchanting possibilities.

In its practical area, the break-through—which involves microbes in a way we find too complex to even think very deep about — may prove a boon to the world's burgeoning population. And for that we are thankful. But at the moment, we prefer considering the lighter side.

Won't it be quite a switch if some day we can drive our atom powered auto up to the corner oil station and say, "Fill ME up!"

Affairs Of State

By Henry C. MacArthur

Additional intrusion by government on the business life of the community is sought by California optometrists, who once again are beseeching the state legislature to prohibit optician and optometrist offices in discount houses.

Assemblyman Tom Bane (D-Tujunga) is the vehicle for the optometric attempt to keep the discount houses from having a service to offer their customers. Bane has introduced AB 290, which provides that

"Any dispensing optician or optometrist who maintains an office in any retail store which lays claim to a policy or a continuing practice of generally underselling competitors shall be deemed as offering to render his services under the representation that the fee for such service is at a discount, or less than the average fee charged under like conditions by other persons so licensed."

The bill would become effective July 1, 1964, if it is ever passed by the legislature and sent to the governor for his signature.

The measure appears to be something of an insult to the intelligence of the legislature, in that a similar measure was relegated to an interim committee in 1961. Sending bills to interim committees usually is a method of getting rid of them the easy way.

However, some measures don't die easy, and it looks now like the optometric measure is destined to become one of the perennials, which are known as the "old turkeys" that will come back to roost on the files of the legislature for many a long year. For there is no indication so far the legislature has changed its mind about relegating the bill to the bottom of the legislative barrel.

However, the lobbyists for the optometric association have to have something to do at a legislative session, and an attempt to stifle free enterprise in favor of monopolistic control of a business, provides these lobbyists with work enough to keep them busy until some final action is taken on the bill. And when it fails, they can come back in 1965 and try it all over again.

Quite aside from the inconvenience caused the legislature, and the expense caused the public through the introduction of bills which in effect have been defeated by reference to an interim committee, a matter of principle is involved in measures of this type.

The principle involved is whether or not the state's lawmakers have any constitutional right to dictate where the establishments of private business shall be located. No optometrist is being forced to operate out of a discount house, so the question arises as to why he should be forced not to operate out of a place like this if he so chooses?

The state board of optometry has adopted rules and regulations which virtually carry out the proposals set forth in the Bane bill, despite the fact this board does not have authority to adopt law. But it may adopt rules and regulations which have the effect of law. So the Bane bill may be merely an instrument of legalizing the board's actions.

BILLS FLOWED into the desks of both houses, with 500 assembly bills and 262 senate bills by the end of the week. Some of them included:

AB292, Bane, increases judicial salaries to $38,000 for chief justice, $36,000 for associate supreme court justices, $34,000 for appellate justices, $28,000 to $30,000 for superior judges, and $26,000 to $28,000 for municipal judges; AB 300, Henson, requires primary elections four weeks in advance of special elections for legislative or congressional offices; AB303, Milias, reduces speed limit to 50 mph on holidays and three-day weekends; AB 312, Garrigus, institutes county-wide school tax and increases state apportionment; SB 153, Cameron, $150 million bond issue for beach and park acquisition and development; SB 173, Collier, requires department of public works and division of highways to establish roadside rests and maintain them; SCA 2, McAteer, lowers to 60 per cent the vote necessary to approve local bond issues; AB 358, Crown, permits disability insurance claims for pregnancy; AB 366, Crown, prohibits raids at homes of recipients of aid to needy children between 9 p. m. and 8 a. m.

ATTORNEY GENERAL Stanley Moss caused a stir during the week when he charged that 23 leading cosmetic firms whose products are on sale in California were shorting the state's women by using false bottoms and other types of deceptive packages. He said he would seek an injunction to prohibit the sale of products in double wall containers. One cosmetic firm spokesman said the double wall packages were to provide better product protection. And Assemblyman Charles J. Conrad, Republican floor leader in the assembly, asked where the consumer counsel had been on the case, renewing his charges that the consumer counsel's work was duplicating that of the attorney general.

GOVERNOR BROWN announced during the week that he would not intervene in three scheduled executions. However, Brown took the opportunity to express again his opposition to capital punishment. He said he hoped people who believe in capital punishment would reexamine their views and study the way it must be administered in such cases as one of the three, where the condemned man is mentally ill.

The View From .. Behind The Badge

Written and Edited by Daly City Police Department

The Policeman . . .

A policeman performs myriad duties, only one of which is to effect the arrest of a citizen. He may arrest a citizen for that worthy's own protection, or because the citizen has perpetrated a misdemeanor, or because there is a reasonable suspicion that the citizen has committed a felony.

We will speak here of the felony. Simply put, a felony is that crime for which the guilty person might be, among other punishments, sentenced to a term in the state prison system.

The Citizen . . .

The citizen has the right to be given every possible and probable benefit of the doubt as to his guilt regarding a crime charged or alleged.

As a result, the citizen, when he is accused of a felony, will stand not one, but a number of trials, in each of which he is accorded every benefit of the doubt.

The Crime . . .

Let us say that the citizen commits a felony, such as robbery or murder or arson. What might happen from this point?

1. The crime may or may not be discovered. And if it is discovered?

2. The citizen may or may not be suspected. And if he is suspected?

3. He may or may not be identified.

4. If he is identified, he may or may not be found.

Curbstone Court . . .

If the suspect is found, then the officer holds what is commonly known as Curbstone Court. During this non-judicial, investigative proceeding, the officer must decide if a felony has probably been committed, and whether or not this person is the likely suspect.

5. As a result of the Curbstone Court, the suspect either will or will not be arrested.

The Sergeant . . .

The officer will have to convince his sergeant that he has, indeed, located and arrested a suspect in a felony case.

6. The sergeant either will or will not allow the booking.

The Lieutenant . . .

The watch commander will peruse the night's bookings, and will endeavor to study the merits of each. He will rule upon the final and official departmental disposition of the arrest. Thus:

7. The lieutenant either will or will not approve the reports. If he is dissatisfied, he is duty bound to see that the suspect is released.

The Deputy District Attorney . . .

This man is an officer of the court, a state body, who performs at the county level. He may refuse to prosecute for a number of reasons; among them, lack of prosecution evidence, an innocuous offense, an unworkable law (and there are plenty of these). Thus:

8. The Deputy District Attorney either will or will not initiate prosecution.

At this point, the state has the option of initiating what is known as a preliminary hearing. An alternative to this is the grand jury hearing.

The Arraignment . . .

The suspect is brought before the Municipal Court Magistrate. There the charges are read and explained to him. If he is without funds, the court will appoint an attorney to represent him. (This applies only in felony cases, however).

The Preliminary Hearing . . .

At a later date, the prosecution present the elements of the case before the Municipal Court Judge. The judge will decide whether or not the prosecution has a prima facia case.

(The alternative here is the Grand Jury hearing).

9. At this point the suspect is either released or, if a preliminary hearing, is held to answer (or is indicted, if the grand jury route is taken).

Superior Court . . .

If held to answer, the suspect then goes to superior court, where his case is tried. He may stipulate a trial by jury or by the judge—the choice, generally speaking, is his.

10. Superior Court will either convict the suspect or free him.

The Appellate Department . . .

11. Superior Court judges may review the case upon the defendant's appeal. They may or may not uphold the appeal. If they do not uphold the appeal, there is still the possibility of the State Supreme Court.

12. If it goes that far, the State Supreme Court may or may not act on a further appeal.

The Federal Supreme Court . . .

If the attorneys wish to contend that the defendant's rights as a federal citizen have been abridged in the arrest or the investigation or the trial they may approach the top and final appellate court of the land, the Federal Supreme Court.

13. If they decide to review this case, the court may rule either for or against the citizen.

Other Ramifications . . .

If convicted, without successful appeal, the citizen may be imprisoned in the state prison system, or may be admitted to probation.

If committed, he may ultimately be paroled. In any event, he may eventually be pardoned by the governor.

It is a fairly successful system insofar as the accused citizen is concerned. Although a lot of guilty ones go free, we don't think there are any innocent people being sent away in this state.

THE SACRAMENTO SCENE

Capitol News Service

The 1963 legislature completed the first three weeks of its six-month session with nothing startling introduced in the way of legislation.

Big series of bills were introduced to liberalize benefits under unemployment insurance and workmen's compensation, as well as to raise the maximum weekly benefits. As a rule, however, no action is taken on such measures until the final days of the session when a "package" on insurance programs is worked out by labor and management.

Otherwise, many of the bills are merely retreads or different versions of legislation which has been introduced in previous sessions. So far, there are bills to outlaw capital punishment, extend it to such other crimes as kidnaping for purpose of rape, or to make a new penalty of life without possibility of parole.

ONE BIG ITEM was not scheduled for introduction until February 4. That is Gov. Edmund G. Brown's budget for fiscal 1963-64. On the basis of advance announcements, the spending document could top the $3.3 billion figure.

Governor Brown already has said it would be above three billion dollars. Hale Champion, his director of finance, said there would be $122.6 million in the budget just to handle workload increases.

Earlier, it had been reported the water development budget would be up $106 million, the highway budget would be up $27 million, and proposals already have been introduced to boost state support for public education by up to $90 million.

A NUMBER of appointments and reappointments to boards and commissions were announced by the governor. They included: George A. Thatcher, 48, Los Angeles, to state college board of trustees; John S. Watson, Petaluma; Lionel Steinberg, Palm Springs, and Leo Globetti of Merced, all reappointed to the state agriculture board; Robert Kingsley, 59, appointed to second district court of appeal in Los Angeles; Louis R. Diaz, Jr., 41, Pico Rivera, appointed to board of trustees for California institution for women; Mrs. Florence R. Wyckoff of Watsonville to state board of public health, and Frank A. Mesple, 57, secretary to the governor's cabinet.

ELECTION NEWS was greeted jubilantly by the Republicans, as Donald H. Clausen (R-Crescent City) swept to a decisive victory over William F. Grader (D-Fort Bragg) in the election to fill the vacancy in the first congressional district. The vacancy was created by the airplane death of Representative Clem Miller (D-Mill Valley) last fall. Clausen, who had opposed Miller in the November election (Miller's name still was on the ballot and received the most votes) polled 79,339 votes to 65,817 for Grader. The latter had been Miller's district representative.

Something For Everyone

by Samuel Chandler

"Surely," wrote a European observer of the United States, "never before in the history of the World have women known such political freedom and controlled such power."

The story of woman's struggle to her present position was published in 1959 in a book by Eleanor Flexner entitled "A Century of Struggle."

It is a readable, though scholarly, account of feminist activity from colonial times until the adoption of the Nineteenth Amendment. Here one reads of well-known episodes such as the Seneca Falls Woman's Rights Convention of 1848 and of such leaders of the struggle as Lucretia Mott, Susan B. Anthony, Elizabeth Cady Stanton, and Carrie Chapman Catt. Here, also, is the story of many obscure persons who contributed notably and of activities that made the plight of women a national issue.

This book is written with depth and amplitude. It's material is fortified with statistics and masses of evidence. The notes are copious and interesting.

Among the chapters that I enjoyed were those dealing with woman's activity in the labor union movement. I did not know that women workers organized unions and led strikes that nearly crippled pre-nineteenth century industry.

Another chapter of note is "Who Opposed Woman Suffrage." The most militant opposition came from women. In 1872 one thousand signed a petition to the U. S. Senate against granting woman suffrage. In 1911 a National Association Opposed to Woman Suffrage was formed by women with a Mrs. Arthur Dodge as its leader.

These and other chapters are filled with facts that make this book a distinguished work that deserves the attention of many readers.

The Fatal Consequence

Letters To The Editor

Dear Mr. Harrah:

Personally, on behalf of the Rotary Club of Daly City, and as Mayor, let me express my sincere appreciation for the truly unprecedented support your newspaper gave to the 1963 Blood Donor Day. I would like especially to commend Jack Wood who aided us so much in the preparation of this year's publicity. We are indebted to you for whatever success this year's program experienced.

Very truly yours,
Joseph J. Verducci
Mayor

Dear Sirs:

I would like to take this opportunity to thank you and your paper for the cooperation we here at South San Francisco Adult School have received these past months.

The South San Francisco Unified School District offers a varied program of more than sixty classes—morning, afternoon and evening—for the interested adult and has just instituted classes where an adult may earn credits toward a high school diploma.

Much of the success of an Adult Education program lies in our reaching the homes of the north peninsula residents. Without your paper's publicity, I am certain that we would not be successful.

Thank you again for your cooperation in bringing to the adults of this area opportunities for further education.

Your sincerely,
G. T. Hurley, Director
Adult Education School

To All the Citizens and Friends in Daly City:

I wish to thank each and every one of you for your attendance on that memorable evening of January 17th and for your part in the very lovely gift which was presented to me. I shall have many hours of pleasure with it.

I also want each one of you to know that I sincerely appreciate your kind words and your "Good-Bye" messages. The will long be remembered.

I thoroughly enjoyed knowing each one of you and working for you. The thirty-eight years of living in Daly City hold many pleasant memories for me and my three children, who were all born and reared in Daly City.

My apartment in southern California is slowly getting organized. It is a bit chilly but not nearly as cold as in Daly City and there is far more sunshine. It will be a pleasure to see any of you when you are in southern California.

Evelyn Mosman

Editor:

Let me take this opportunity to again thank you for the generous space you have given us for the publicity given to Cub Pack 84. We truly feel it has helped to make our past year a more successful one, and are most appreciative of the courtesy extended us.

Mrs. George F. Brandt

Vincent de Paul Needs Blankets

For too many, ours is a cold city! And it is colder still when there are no warm clothes to wear — no heavy blankets to keep out the unseasonably low temperature which has visited San Francisco these last few weeks.

The Saint Vincent de Paul Society is issuing a special appeal for warm clothing and bedding. The Society has been beseiged with calls for these items. Call HE 1-4583 and a truck will pick up promptly.

Adult School Diplomas Given

By Louis J. Martin

Every year we have adults returning to school who were in high school five, ten, or fifteen years ago, or longer, and who didn't stay to get their high school diplomas. The high school diploma program in the adult evening schools of the Jefferson High School District has been in operation for about ten years. This semester, more than 500 students are undertaking subjects in the adult school. Last summer, more than 60 adult students successfully completed all requirements for their high school diplomas.

If you were a high school drop-out, we urge you to make application for credit when you enroll in classes this spring. There is no obligation. The Principal will secure your high school records, military records, work experience data and any other information that is required, and will assist you in planning your re-education program. Adult students in the program may proceed at their own speed in that they may take one class at a time or more classes if they desire to do so. Students must decide how much time they can spend each week during the semester toward their adult classes. Obviously, the more classes you take, the more credit you earn and the sooner you will graduate.

Almost all classes may be taken for hibh school credit. For each class that you successfully complete, you will be given five units of credit. A total of 150 units are required for an adult over 21 years of age to receive a diploma. Many people are surprised to find that they are able to complete their diploma requirements in a shorter period of time than they had thought possible.

Louis J. Martin, Principal of the Adult Evening School, stated that today in the United States there are more than 60 million adults who have not completed their high school work. It is a known fact that persons with high school diplomas earn 50 thousand dollars more in a lifetime than those without a high school diploma.

The question is often asked: "What other advantages do persons with a high school diploma have over those without a high school diploma?" You will find that it is easier to get a job; you will get a better job; you will be promoted faster; you will make more money; you will become eligible for apprenticeship training programs; you will be better able to plan a career in the Armed Forces; you will build a foundation for professional training; and, you will have a fuller, richer and more satisfactory liwe.

If you are interested in working toward a high school diploma, it would be wise to contact the Principal of the Adult Evening School by calling PL 5-1162 as soon as possible. Students planning to enter in the spring semester, 1963, must be enrolled in classes by not later than February 14th.

Veterans who have seen more than 90 days of military service and who are 21 years of age or older are eligible to take the battery of 5 tests. Each test takes approximately 2 hours to complete, and are administered separately. The battery of G.E.D. tests consists of five tests; namely, (1) Correctness and Effectiveness of Expression, (2) Interpretation of Reading Materials in Social Studies, (3) Interpretation of Reading Material in Natural Sciences, (4) Interpretation of Literary Materials, and (5) General Mathematical Ability.

All students who are enrolled in the Personal Counseling and Vocational Guidance class held on Monday evenings are also eligible to take the test on the recommendation of the Instructor and at no charge to the student. Veterans who do not enroll in the class are required to pay a special handling fee of $1 per test.

Tests for veterans will be given on the following Monday nights at Westmoor High School in Room 16 at 7 p.m.: February 18, March 4, March 18, April 1, April 15.

Adult Education Serves Many Here

Public adult education in California presents a great opportunity for people to learn new skills, retrain for new jobs, and to better understand the complex society in which we live. For example, more than 600,000 adults enrolled in 20,486 adult schools last October. During this current school year, more than 7,000 adults will have passed through the adult education program of the Jefferson High School District.

1963 Marks The 40th Anniversary Of Jefferson Adult Education Program

With the opening of the Spring Semester on February 4 through February 14, the Adult Evening High School observes its 40th anniversary. It started in 1923 with classes for Citizenship and now boasts over 125 different classes in a variety of subjects.

The Adult Evening School is an important part of the total educational program offered the citizens of the Jefferson Union High School District. Its Principal is Louis J. Martin, who has guided the program for the past four years.

In explaining the advantages offered through adult education in the Jefferson District, Martin said "Through diversified and enlightening classes, the influence and effect of the program is felt by hundreds of families throughout the community. At the end of each year, nearly 7,000 persons will have enrolled in one or more phases of the adult education program. Many persons are working for a high school diploma, for personal improvement reasons, or to prepare for the rigors of professional education on the college level. Other residents attend special short-term courses in homemaking, income tax preparation, first aid and real estate training.

"Some adults wish to learn to drive the automobile, or take up vocational training as, for example, data processing or Christmas sales training. Others wish to develop a better understanding of themselves through psychology of human relations or philosophy, while some wish to learn how to sketch, draw, and/or create original millinery designs. Four languages (Spanish, Italian, French and German) are being learned by adult students for cultural improvement; and many shop courses in welding, woodworking, auto shop, machine shop and electronics are offered for men who desire self-improvement.

"Many foreign born residents of the area are finding much needed help by adult education instructors who offer English language training as well as information to pass the Citizenship Examinations in United States History and American Government. Pre-school nursery observation classes in Pacifica and Daly City are currently exposing exceptionally worthwhile ideas and skills for wives and mothers."

Martin concluded "To those persons with ambition enough to invest their time, efforts and interests in adult education, the results are rewarding. But it requires a sense of devotion, patience and perseverance to pursue the selected program through to successfuly completion."

An attractive brochure listing all classes will be mailed to your house on request by phoning PL 5-1162.

TV and RADIO

By Mona Baker

Always on the lookout for news concerning advancement in color TV, we were pleased to learn of the most recent development. Curtis-Mathes Company is now manufacturing a black and white combination television set (stereo radio and phonograph) in which a colored unit (tube and chassis) can be exchanged for the black and white unit. In other words, if you buy one of the present sets now and any time after May 1 (when the new color units will be on the market) the black and white unit in the set can be exchanged for color. You will still have the samecabinet and the cost involved is not nearly as much as purchasing a new color set.

According to Jerry Strauss, owner of the Westlake store: "There probably will be many changes in color picture tubes and sets during the next year. This development is the ideal way to enjoy stereo radio, phonography and black and white television now with the privilege of adding the newest in color as it develops."

That this is a colorful season for TV there is no doubt. NBC just released their year-end report, which shows that the network presented "nearly six hours of color a day — almost 2,000 hours — and increased the percentage of night-time color programming last fall to a record 68 per cent."

Also for the first time, last fall ABC added color programs to its schedules. Over at ABC, one of the most recent additions to the color schedule is a two-part drama in color of the popular "Lassie" series scheduled for February 17.

Good news for Bay Area club groups and civic organizations from KGO-TV! The station will arrange free bus service to the "Tennessee Ernie Ford Show" for a maximum of 160 people from any adult group headquartered within a radius of 50 miles from San Francisco. To make arrangements for your group, contact Jeanne Barrett, public relations, department, KGO-TV (phone UN 3-0077). The thoroughly entertaining musical-variety show is the only daytime network show to originate in San Francisco and go coast-to-coast. Do plan to gather your group together and go. We're sure you'll have fun.

TV DATES TO JOT DOWN: Two important dates for KPIX, January 30 (8 p.m.), special documentary honoring 20th anniversary of the Sixth Army. Also on Channel 5, beginning next Sunday (February 3, 7 a.m.), re-broadcast of "World of Art" series which features lessons in drawing.

NEW KQED series, "Heifetz Master Class," with famed violinist Jascha Heifetz working with gifted music students, (Tuesday, 8:30 p.m.).

Adult Education Registration Feb. 4 - 14

Registration for the Adult Education Program at Westmoor, Jefferson, Terra Nova and Oceana High Schools starts February 4 and runs through February 14. Registration for classes are held at the first meeting of the class with the teacher, on the day, time and place indicated by the schedule. After the second week, all registrations are held in the school office, Monday through Thursday, 6:30 p.m. to 9:30 p.m. A secretary will be on duty to assist you in each of the four high schools.

"For a one dollar registration fee, you can't beat it," stated Louis J. Martin, Principal of the Adult Education Program.

"For one dollar, a person can learn to speak French, to type, to upholster furniture, paint a picture, care for the garden and sew a dress. For people who want to learn to do things, it's the greatest one dollar bargain you can find today."

The Adult Education Program offers added opportunity not only for those adults who wish to complete their high school education (60 adults graduated last year), but also for those who wish to extend their education beyond the high school level. There are no residence requirements. The only requirement is age (over 18), the desire to attend any class, and the payment of the one dollar registration fee. The fee entitles the registrant to sign up in any number of classes.

Martin reports that the program offers a well-rounded curriculum, with courses in the academic areas. Courses include Math, English, Public Speaking, Creative Writing, Foreign Languages, Speed Reading, Business Education, Citizenship Preparation, Crafts, Fine Arts, Homemaking, Physical Education, First Aid, and Parent Education. Specific course titles are listed in an attractive brochure. Brochures listing all class schedules may be obtained in public libraries, high schools, or by calling PL 5-1162.

THIS SERIOUS - MINDED adult is one of more than 6,000 students who will attend classes this year in the Jefferson Union High School District's four adult schools.

TOP SPOTS FOR DINING AND DANCING

You Dine First Class At Club First Cabin

Club First Cabin, situated at 11 San Pedro road in Colma, is one of the finest cocktail-restaurant establishments anywhere in the area, since Dottie and Neal Moorehouse established ownership last May.

Neal Moorehouse, resident of Daly City since 1927, has worked in many fine bars and restaurants throughout the city and the knowledge he has gathered from various restaurant experiences has been incorporated into the "Club First Cabin."

The bar-lounge and the cabin dining room are paneled in walnut and mahogany with Colonial appointments and soft defused lighting, which is conducive to pleasant dining. Along the walls are many pictures done in hammered copper by "Copper Creations by Tina."

Specialite de la maison at the First Cabin is South African lobster tails done to perfection in sherry wine. Also, Moorehouse claims to serve the best steak in town for the price of $2.95. There is also a vast selection of liquors, wine and champagne to satisfy the most selective taste.

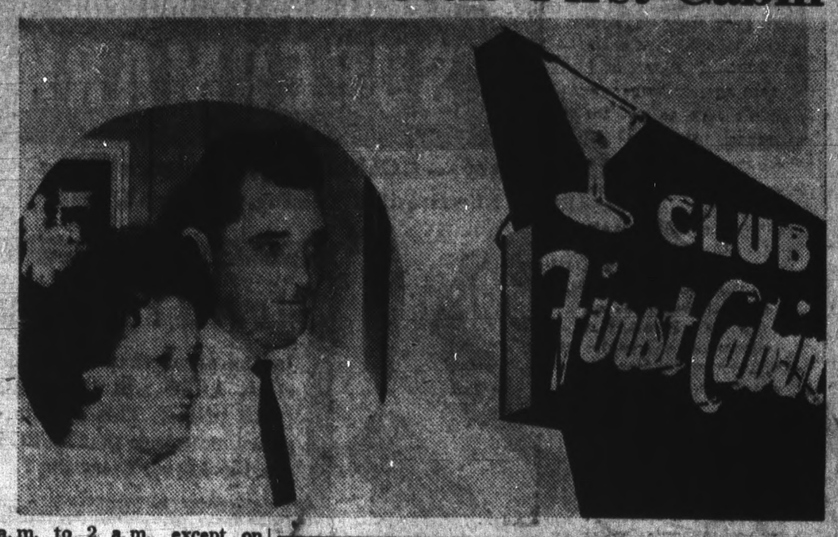
Friday and Saturday nights there is piano music in the lounge, where one can relax in a quiet atmosphere while consuming his or her favorite beverage.

For the luncheon group, thre is a fine selection from the menus at prices which start at 85 cents up to $1.85.

The Club First Cabin is open seven days a week from 11 a.m. to 2 a.m., except on Sundays, when the doors open at 12 noon.

Banquet facilities are available Mondays and Tuesdays and will accommodate up to 50 people.

For an occasional cocktail, lunch or dinner, call Neil or Dottie Moorehouse at WY 2-2340 and tell them you want to go FIRST CABIN.



When final figures are in, highway-user taxes collected by state governments are expected to total about 5.8 billion dollars for the year 1962. This would be an increase of about 4.2 per cent over the 5.5 billion dollars collected by the states in 1961.
